# Sprint

**SO BEAUTIFUL IT WILL MAKE YOU DREAM,  
SO QUICK IT WILL MAKE YOUR HEART RACE**

In 1954 Alfa Romeo introduced the world to the Giulietta Sprint, the car that invented the idea of a high-performance compact car. The engine came directly from racing, an aluminium 4-cylinder 1.3 litre that propelled the Sprint to an extraordinary 105 mph, a speed unheard of at the time. The styling was by Bertone, the romantic and feisty silhouettes immediately heralded as a classic and an icon of Italian design.

But it wasn't just about looks; the car also had real substance. Reliable and accessible its price and running costs made it a dream to own. The Giulietta Sprint is the car Italians desire, a much loved automotive and social phenomenon with over 35,000 models produced.
