## EFFICIENCY & PERFORMANCE

TSI: smaller engine, bigger performance.

**INTRODUCING THE ECOTSI ENGINE – the best of both worlds.** The EcoTSI engine combines the powerful performance of a petrol engine and the lower consumption and CO<sub>2</sub> emissions of a diesel. It assures more control and anticipation without losing out on smooth handling or driving pleasure. With combined miles per gallon of 67.3 and emissions of 98 g of CO<sub>2</sub> per Km, the EcoTSI is the most clean and efficient petrol engine available in the new Ibiza.\*

\* Fuel consumption and CO<sub>2</sub> figures are obtained under standardised EU test conditions (Directive 93/116/EEC). This allows a direct comparison between different manufacturer models but may not represent the actual fuel consumption achieved in 'real world' driving conditions. More information is available on the SEAT website at [www.seat.co.uk](http://www.seat.co.uk) and at [www.dft.gov.uk/vca](http://www.dft.gov.uk/vca).

<sup>1</sup> The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower).

To convert from metric to imperial horsepower, divide the PS by 1.0139.

<sup>2</sup> Where law permits.

<sup>3</sup> Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class.

The driving style, road traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures which may differ from those calculated within this standard.

# SOLUTIONS PERSONAL CONTRACT PLAN (PCP)

## Making your budget go the extra mile

Solutions (PCP) is a flexible finance package that really puts you in the driving seat. Solutions offers flexibility – from your deposit and monthly repayments to what you do with your SEAT at the end of the agreement.

By paying a small deposit (as little as a single month's repayment) over a repayment period from 18 months up to four years, you can enjoy a plan individually suited to your needs and monthly budget.

Solutions takes away the worry about depreciation because a proportion of the value is left until the end of the agreement (the optional final payment), which acts as a guaranteed minimum future value. By doing this you can lower your monthly repayments or make your budget go even further with a higher spec.

The options are wide open with Solutions.

### DECISION TIME

1. Choose a repayment period and annual mileage.
2. Pay your deposit which can be made up of cash or a part exchange.
3. Agree the number of repayments.

**Setting the deposit and repayment term helps create the right combination for a monthly payment budget.**

### AT THE END OF YOUR AGREEMENT YOU HAVE 3 OPTIONS

1. Part exchange your existing car for a new SEAT on a Solutions (PCP) contract (subject to status).
2. Pay the optional final repayment and keep your SEAT.
3. Hand the car back (subject to terms and conditions).

### IMPORTANT INFORMATION TO CONSIDER

/ You may end your agreement earlier than the full term. However, depending how far you are in to your agreement will affect the final amount left to pay.

/ If you exceed the anticipated mileage agreed at the start of your agreement and intend to return the vehicle then excess mileage charges will apply.

/ It is important to keep the vehicle in good condition as this will affect the value of the vehicle. You may be charged for any damage that goes beyond fair wear and tear should you choose to return your vehicle.

## COST OF YOUR CAR

### DEPOSIT

As little as one repayment

### AMOUNT TO FINANCE

Divided into any choice of 18 to 48 fixed repayments

### ADDITIONAL FINAL PAYMENT

You have three choices at the end of your agreement

An offer of finance depends on certain conditions. Finance subject to status. Available to 18s and over. Terms and conditions apply. SEAT Finance.
