

LEXUS NX

 LEXUS

AMAZING IN MOTION

Introducing the NX, a totally new kind of Lexus. Designed to command attention, its striking angles and irresistibly bold looks bring 'Amazing In Motion' to the streets. As you'd expect from the people who developed the world's first luxury hybrid SUV, it's incredibly refined to drive, and is available with our leading Full Hybrid technology. Integrating all this experience, the new NX takes a quantum leap forward with its leading edge design, comfort and intelligent innovation. In short, we don't stop until we create amazing.

"FOR THE NEW NX WE SET OUT
TO **CREATE** AN SUV SO
SHARP AND **DISTINCTIVE**,
YOU'LL IMMEDIATELY WANT TO DRIVE IT."

Takeaki Kato, NX Chief Engineer

THE STRIKING NEW NX

Created to stand out in the city, the all-new NX crossover offers flexible space and superb comfort for up to five people with luggage. Powered by our pioneering Full Hybrid or petrol turbo drivetrains, this breakthrough Lexus delivers highly responsive power, combined with astonishing urban agility. Intuitive Lexus technology includes Touch Pad, a Panoramic View Monitor and Pre-Crash Safety. For a more dynamic experience, the new NX F SPORT models have 18-inch alloys, an F SPORT steering wheel, perforated leather sports seats and optional Adaptive Variable Suspension.

STREET ART

The distinctive new NX displays a wide stance, bold Lexus 'spindle grille' and exquisite LED lights front and rear. As much modern art as car, the new NX refuses to go unnoticed. To create its sharp yet fluid lines, Lexus designers drew inspiration from the intricate beauty of molten metal. Approach the NX and the door handles light up to greet you, while a further statement is made by the dynamic side 'kick-up' line and coupé-like silhouette. To the front of the F SPORT and Premier grades LED triple-projector headlights and arrowhead daytime running lights depict the unmistakable Lexus aura. To the rear, gem-like LED taillights project our 'L' emblem, underscoring the SUV's powerful shape.

CUTS THROUGH CONVENTION

Enjoy precise urban handling combined with world-class Lexus smoothness and refinement. In an SUV that's fun to drive, and agile in the city, the driver can select their preferred driving mode to meet their mood, whether it be switching to the peaceful EV (Electric Vehicle) mode in Hybrid models for zero emissions in heavy traffic, or experiencing sophisticated Lexus performance in SPORT mode. A strong chassis ensures smooth and precise handling, while All-Wheel Drive delivers extra confidence in slippery conditions.

INTUITIVE LUXURY

Designed to sense your every need, the NX lets you drive in absolute comfort. Inside the new NX you'll discover intuitive technology that makes your life simpler: an intelligent overhead lamp that senses your fingertip so you don't search in the dark, and a tailgate that remembers how far you usually open it. Beautifully finished by 'Takumi' master craftspeople, the interior features a 'spindle grille' inspired centre console, while an analogue timepiece and ambient lighting enhance refinement. Leather seats (with the front seats being electrically powered) are fitted as standard to Luxury, F SPORT and Premier grades. Adjustable 60:40 rear seats are standard on all grades.

URBAN POINT OF VIEW

Relax in sumptuous leather seats with S-Flow climate control, while a Panoramic View Monitor gives extra confidence in the city. Seated well above most other traffic, you'll enjoy a great view of the city, relaxing in the NX's beautifully finished seats, with leather as standard on Luxury, F SPORT and Premier models. Enhancing cabin freshness in all weather conditions, S-Flow air conditioning only controls the climate of the front seats that are occupied, while on SE grade upwards, ECO mode electric seat heaters warm you more efficiently on cold mornings. For easy manoeuvring on Premier grade, the Panoramic View Monitor provides images from four discreet cameras. These are located on the front grille, door mirrors (the cameras even work when the mirrors are folded in) and tailgate - with on-screen digital guides for trouble-free driving in a confined urban environment.

CONNECTED TO THE CITY

TOUCH PAD ACCESS TO NAVIGATION CONNECTED SERVICES WIRELESS CHARGER

No matter how busy your life, you'll stay informed and up-to-date in the new NX – with innovative technology like the wireless charger, that tops up your mobile's battery when placed in the console box. Or the intuitive Touch Pad that provides seamless access to Lexus Premium Navigation and Connected Services. The latter has features like Online Search, Google Street View®, Panoramio® or Connected Traffic. Alternatively, simply wind down listening to your favourite music on the peerless Mark Levinson® Premium Surround system.

All features available on selected grades.

Please check your phones compatibility with your local Lexus Centre

NX 300h THE POWER OF HYBRID

Lexus Hybrid Drive delivers 197 DIN hp of refined power, with S grade CO₂ emissions from 116 g/km. Equipped with our latest Lexus Hybrid Drive - seamlessly orchestrating power from a 2.5-litre petrol engine and electric motor(s) - the NX 300h is incredibly smooth and quiet, yet is as easy to drive as a conventional luxury car. Delivering lively performance, fuel consumption on the S grade is from a mere 56.5 mpg - amazing for an SUV of this size. Regenerative braking means no hybrid battery recharging is required and, thanks to our experience in hybrid technology, the NX 300h has very low running costs. To learn more, please visit: lexus.co.uk

NX 200t

DISCOVER THE FUN OF TURBOCHARGED POWER AND PADDLE SHIFT CONTROL

Powered by our brand new 2.0-litre petrol engine - delivering 238 DIN hp of turbocharged fun - the dynamic new NX 200t gives an immense boost to your crossover enjoyment. Exclusively available on F SPORT grade, the NX 200t boasts distinctive twin aluminium exhaust tips. Fitted with electronically-controlled All-Wheel Drive, paddle shifts give you direct control via a highly responsive 6-speed automatic transmission.

SCULPTED TO STAND OUT

Now available in both hybrid and petrol turbo drive trains, the NX F SPORT is tuned for dynamic performance. For maximum driving enjoyment, the daring new NX F SPORT is equipped with exclusive performance features and aggressive sports styling. Outside, 18-inch alloys, F SPORT grille and front spoiler lip attract even more attention. Inside, driving enthusiasts will enjoy a perforated F SPORT leather steering wheel and highly supportive leather sports seats built using 'integrated foaming' technology. Aluminium pedals and carbon-look inlays complete the sports interior. With optional Adaptive Variable Suspension, adjustable for extra responsiveness, the NX F SPORT delivers a smooth yet dynamic SUV experience.

SHARP SIGHTED

The new NX is engineered to reduce driver fatigue. On NX 300h Premier grade an extra-wide colour Head-Up Display projected on the windscreen helps you concentrate on the road ahead; Lane Keeping Assist stops you drifting out of lane and Automatic High Beam switches to low beam when required. To help avoid danger, as standard across all models, Pre-Crash Safety uses millimetre-wave radar technology to detect objects ahead - applying the brakes and tightening seatbelts if appropriate. Finally, should you ever be involved in a collision, you and your passengers are protected by a strong safety cell and eight airbags.

TAKUMI CRAFTSMANSHIP

NX production is overseen by Takumi Master Craftspeople. With its 'shimamoku'* hand-finished wood inserts and beautifully stitched leatherwork, the new NX resets benchmarks for this kind of SUV. Manufactured at our Kyushu plant in dust-free clean room conditions, paint shop employees go through two vacuum chambers to remove particles from their special suits and hair. A water screen – nicknamed Niagara – reduces dust even further. Gleaming paintwork is produced by hand sanding each foundation coat (a time-consuming process normally reserved for coach-built cars).

*On NX 300h Premier grade only

FRESH THINKING

Powered by a highly efficient Lexus Hybrid Drive, the NX 300h also features energy saving LED lights and eco route planner. Equipped with the latest Lexus Hybrid Drive - from the pioneers and leaders in this technology - at the end of its life, up to 85% of the NX 300h can be recycled. Also, an innovative Lexus process ensures that 95% of the battery can be reprocessed. No harmful substances (like lead, mercury or cadmium) are used during manufacture, and production at the Kyushu 'Eco Plant' is organised using our world-famous lean manufacturing techniques, with waste being kept to an absolute minimum.

In 2004, Lexus became the first premium carmaker to perfect Full Hybrid technology. A decade later, over 650,000 Lexus hybrid models have been sold and we remain the leader in this field. The NX 300h's second-generation Lexus Hybrid Drive delivers refined power with outstanding fuel efficiency and exceptionally low emissions – zero when in EV (Electric Vehicle) mode. To learn more, please visit: www.lexus.co.uk/hybrid

1 / 2.5-Litre petrol engine A highly efficient 155 DIN hp 'Atkinson Cycle' 4-cylinder petrol engine, with VVT-i valve control and optimised electronic fuel injection, forms the heart of the NX 300h's Full Hybrid powertrain. Start/Stop technology and exhaust heat recycling help reduce fuel consumption and emissions even further.

2 / Lexus Hybrid Drive No larger than a conventional automatic transmission, Lexus Hybrid Drive's front electric motor, generator and power split mechanism are all housed in one highly compact hybrid transmission. Energy flows are managed by an advanced Power Control Unit that constantly optimises the allocation of power – electric, petrol or a combination of both up to 56.5 mpg.

FULL HYBRID TECHNOLOGY

1 / Hybrid battery - No plugs required Featuring an innovative new split design, and located under the rear seat so as not to encroach on the NX 300h's large luggage space, the hybrid battery provides high power output in relation to its weight. The NX 300h recharges its hybrid battery as required – using electricity generated when driving and braking – thus avoiding the need for any external charging.

2 / EV (Electric Vehicle) mode With sufficient battery charge, EV mode lets you drive at lower speeds over shorter distances using just electric power. EV mode is near silent, emissions-free and consumes no fuel. This is ideal, for instance, when driving in heavy city traffic or enclosed car parks.

3 / Regenerative braking When braking or decelerating, the front and rear wheels drive the high-output electric motors so that they function as generators. Kinetic energy – which would otherwise be lost as heat – is then captured and converted into electric power. This is stored in the hybrid battery for later use.

4 / Full hybrid performance The new NX 300h delivers 197 DIN hp of super smooth power. Amazingly, the combined CO₂ emissions of the S grade are from 116 g/km and fuel consumption is 56.5 mpg.

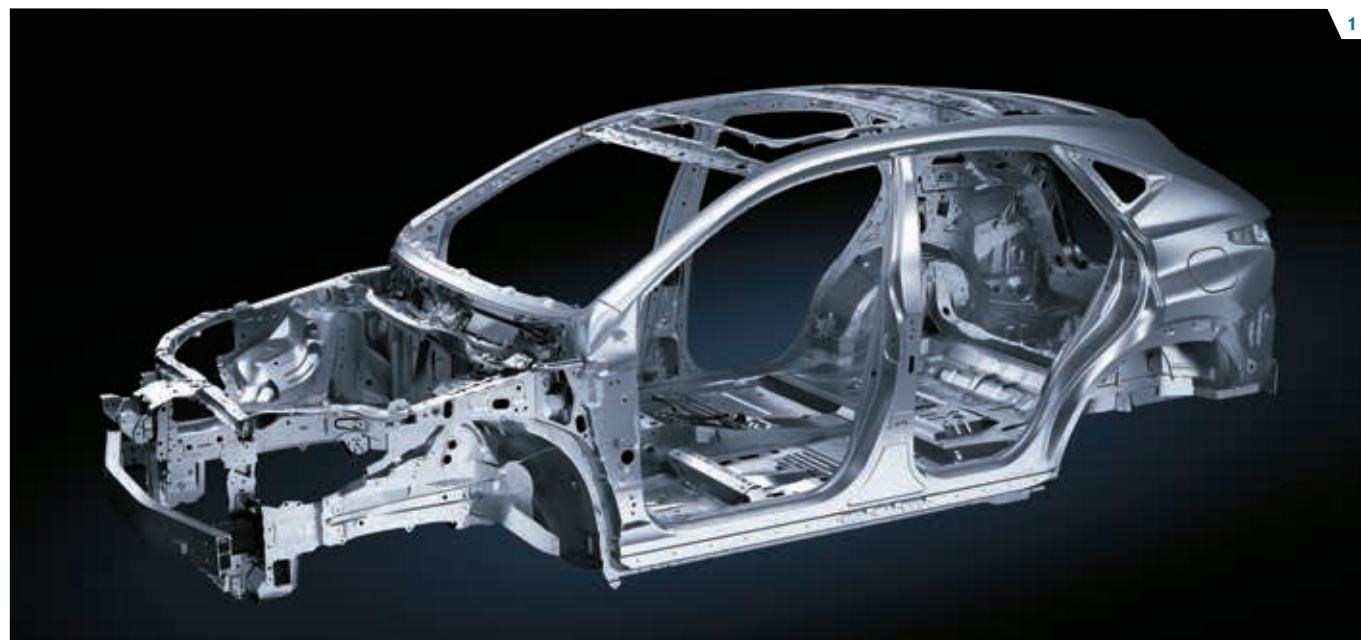

Start up, driving off When starting off, the powerful front and rear electric motors can swiftly propel the NX 300h up to 40mph, with electric power supplied by the hybrid battery. At this point the vehicle is almost silent, uses no petrol and produces zero emissions.

Normal driving conditions At speeds above 40mph the ultra-smooth Atkinson Cycle petrol engine cuts in, almost silently, while still receiving assistance from the electric motors when required. Through the near perfect distribution of its petrol and electric power sources, the NX 300h provides extraordinary driving enjoyment – together with low emissions and modest fuel consumption.

Full throttle acceleration Accelerate powerfully and the combined power of the electric motors instantaneously supplements the 2.5-litre petrol engine. Together they deliver a potent surge of torque to provide breathtakingly fast linear acceleration precisely when you need it.

Deceleration, stopping, braking When decelerating or coming to a halt, the petrol engine turns off, cutting emissions to zero. Brake, or take your foot off the accelerator, and regenerative braking harnesses the kinetic energy lost in other cars. It converts this into electrical energy for storage in the hybrid battery, which is one reason why you never need to recharge a Lexus Full Hybrid.

EXPERIENCE LEXUS HYBRID DRIVE

1

To ensure precise and enjoyable performance on all types of road, the new NX was first tested and refined in the world's most advanced driving simulator and then driven over many hundreds of thousands of kilometres in the toughest Arctic and desert conditions.

1 / Extremely strong chassis With its all-new chassis, suspension and steering, the new NX is incredibly smooth and refined to drive. Advanced laser screw welding and adhesive bonding techniques make the NX extremely rigid. This has produced an SUV of great strength, which rewards drivers with refined handling characteristics. Equipped with compact MacPherson strut front suspension and sophisticated double wishbone rear suspension, the NX delivers outstanding road holding, saloon-like cornering characteristics and superb straight-line stability. For a more engaging drive, optional Adaptive Variable Suspension on F Sport grade intelligently controls the damping force on all four wheels. This not only improves ride comfort, but also increases handling stability.

2 / Advanced aerodynamics The NX has excellent aerodynamics, thanks to a near-flat underbody and large rear spoiler. To reduce the overall drag coefficient, Lexus engineers also redesigned the door mirrors. These measures not only enhance stability and handling, they also improve fuel efficiency and reduce wind noise.

2

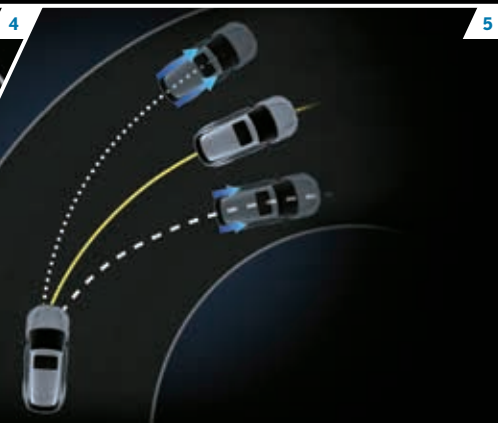

1 / Drive Mode Select Located on the centre console, next to the gearshift, Drive Mode Select allows drivers to choose between ECO, NORMAL, SPORT modes, for maximising the car's efficiency, dynamism or refinement.

2 / E-FOUR On NX 300h All-Wheel Drive models, E-FOUR delivers seamless performance and confident traction over rougher terrain. The innovative E-FOUR drivetrain features the addition of a 68 DIN hp electric motor mounted on the rear axle, which delivers instant torque on demand.

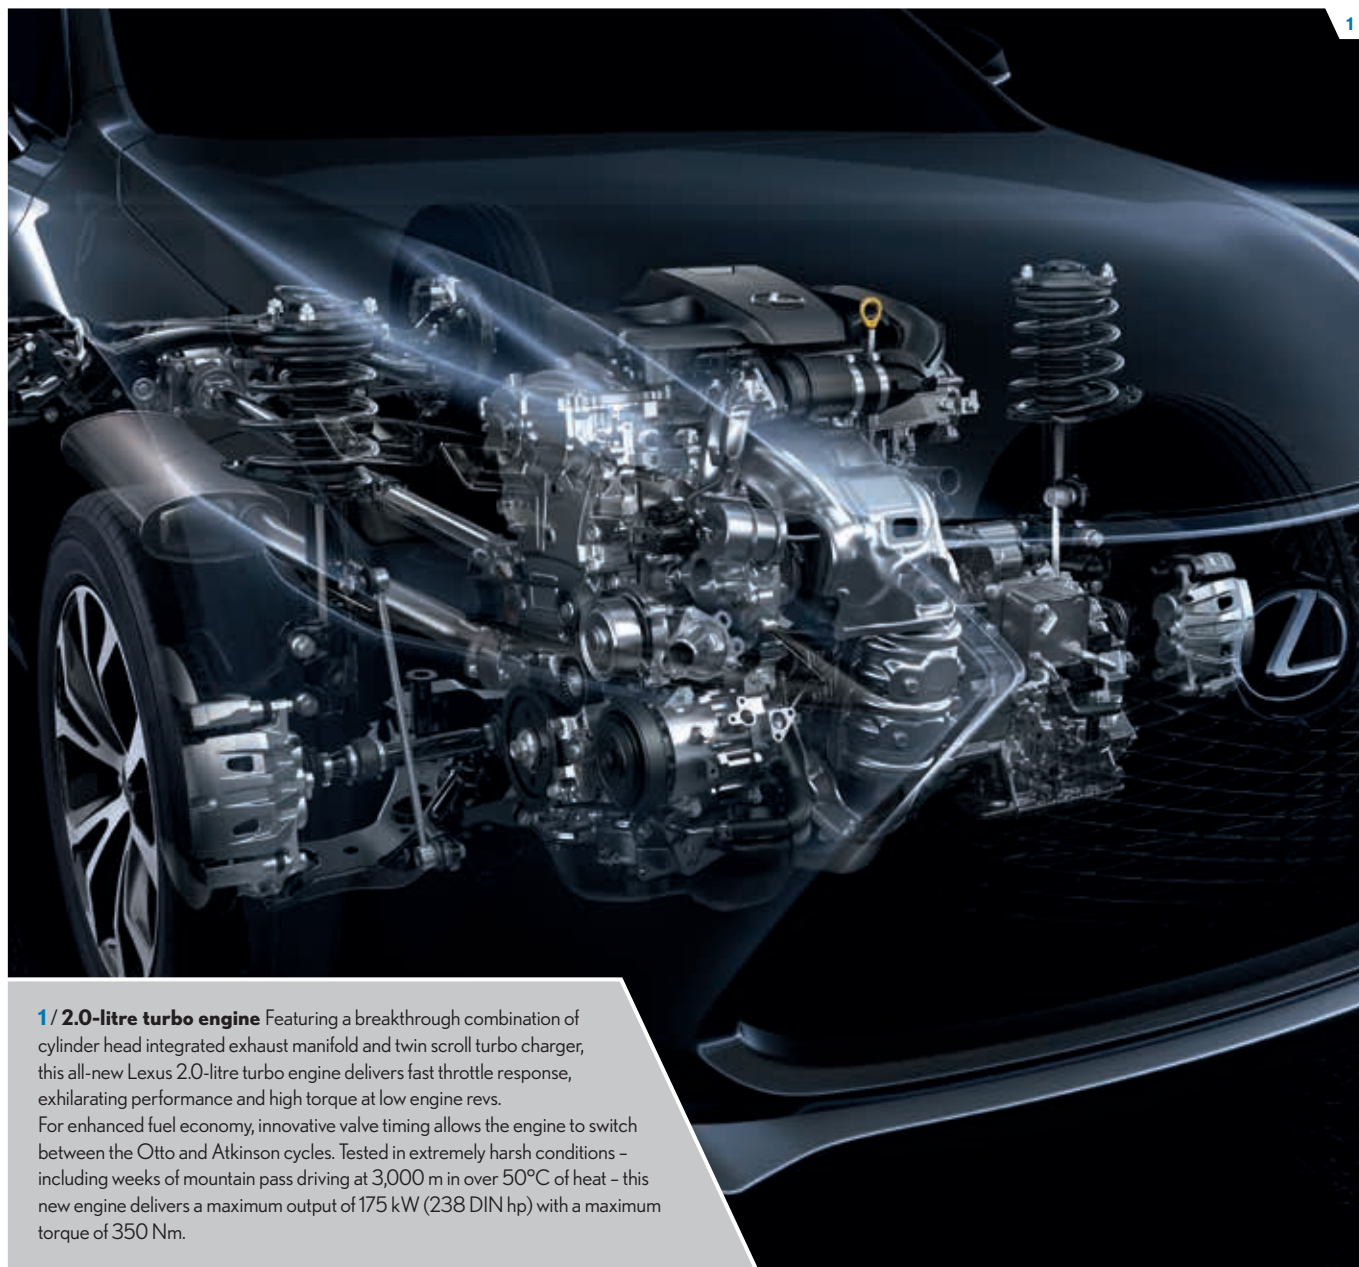

3 / Hill-start Assist Control Hill-start Assist Control maintains brake pressure to help prevent the NX from moving backwards when starting off on a slope. Hill-start Assist Control also minimises wheel-spin on slippery inclines.

4 / Traction Control Traction Control increases the NX's ability to grip, especially when starting off or accelerating on uneven or slippery surfaces. Corrective measures are applied the moment the risk of wheel-spin is detected, thereby maintaining traction.

5 / Vehicle Stability Control Vehicle Stability Control helps prevent the loss of vehicle control, particularly when cornering quickly or at the onset of a skid. Stability is improved and vehicle speed lessened by the selective application of brakes and, or, power reduction.

DYNAMIC PERFORMANCE

1 / 2.0-litre turbo engine Featuring a breakthrough combination of cylinder head integrated exhaust manifold and twin scroll turbo charger, this all-new Lexus 2.0-litre turbo engine delivers fast throttle response, exhilarating performance and high torque at low engine revs. For enhanced fuel economy, innovative valve timing allows the engine to switch between the Otto and Atkinson cycles. Tested in extremely harsh conditions – including weeks of mountain pass driving at 3,000 m in over 50°C of heat – this new engine delivers a maximum output of 175 kW (238 DIN hp) with a maximum torque of 350 Nm.

INNOVATIVE ENGINEERING

The new NX 200t comes standard with a dynamic torque control 4 wheel drive system which delivers optimised torque distribution from 100:00 to 50:50 rear wheel drive split, enhancing performance and fuel consumption.

1 / Twin exhaust tail pipes The NX design team have created stunning twin exhaust pipe for the NX 200t. It delivers the refined sound of the high-performance turbo powerplant with unique style and sophistication.

2 / 6-Speed automatic transmission The NX 200t's new 6-speed automatic transmission is designed to deliver maximum power from the turbo engine. Thanks to its new torque-demand control logic, the system optimises the required engine torque at any moment, ensuring quick throttle response and high fuel efficiency.

3 / D-4S Depending on the driving situation, this advanced injection system distributes the fuel load between the higher-pressure direct injectors in the cylinder, and the lower pressure port injectors. Delivering optimum combustion at all times, D-4S ensures enhanced fuel economy and excellent low-speed torque.

4 / Turbocharger This highly efficient new twin scroll turbocharger has been engineered to produce high torque right through the rev range. The shape of the turbine blades has been optimised and the friction in the bearing mechanism reduced, creating a compact high-efficiency turbocharger with incredible response performance.

The new NX SUV has an incredibly strong passenger safety cell and eight airbags. As standard, the SUV offers advanced Pre-Crash Safety technology. Pioneering driver support systems include Automatic High Beam, Lane Keeping Assist, Blind Spot Monitor and Rear Cross Traffic Alert are featured on selected grades.

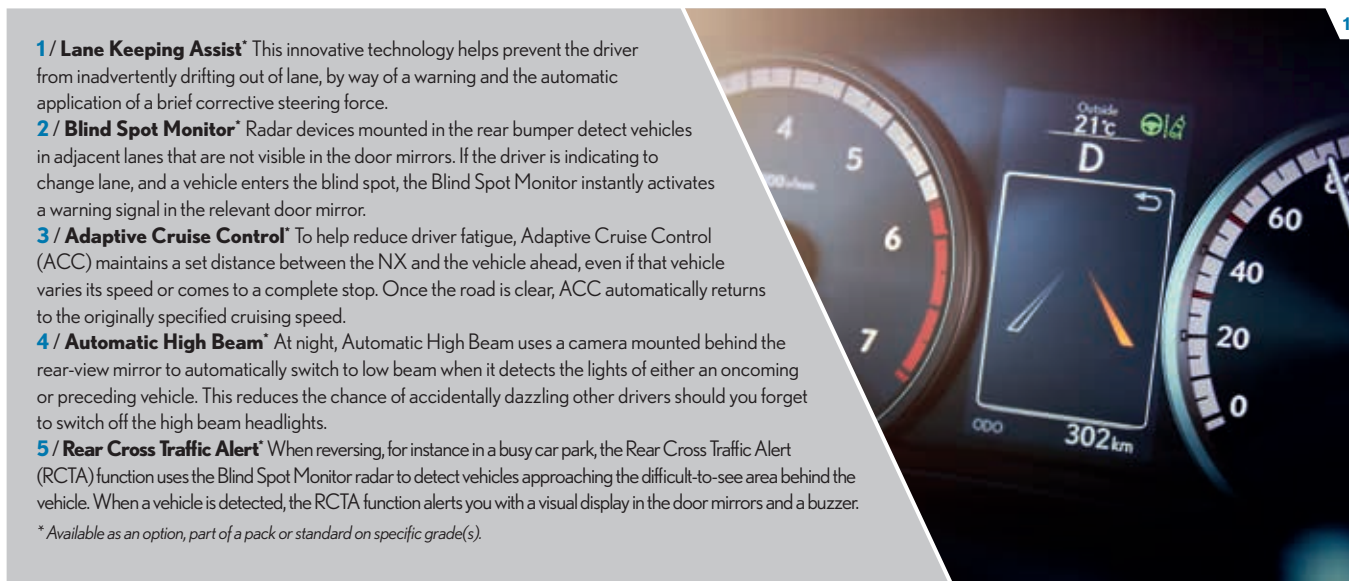

1 / Eight airbags In addition to an immensely strong passenger safety cell, occupant security is provided by eight airbags. The driver and front passenger are protected by 2-stage head airbags, as well as knee (driver only), front passenger cushion airbag and side airbags. Curtain shield airbags run the full length of both cabin sides. All seatbelts, except for the centre rear seat, are also specified with pre-tensioners. This exceptional level of safety protection is provided as standard in the new NX.

2 / Whiplash injury lessening seats The front seats are designed to minimise whiplash inducing neck motion in a rear impact. Reinforced seat frames allow the torso to sink into the seatback, while the placement of the headrest supports the head more effectively.

3 / Pre-crash safety Millimetre-wave radar and an on-board computer calculate collision risk ahead. If the risk is high, the driver is alerted by audible and visual warnings and brake pressure is increased. When a collision is deemed unavoidable, the brakes will be applied automatically as necessary and the front seatbelts tightened.

ADVANCED SAFETY

1 / Lane Keeping Assist* This innovative technology helps prevent the driver from inadvertently drifting out of lane, by way of a warning and the automatic application of a brief corrective steering force.

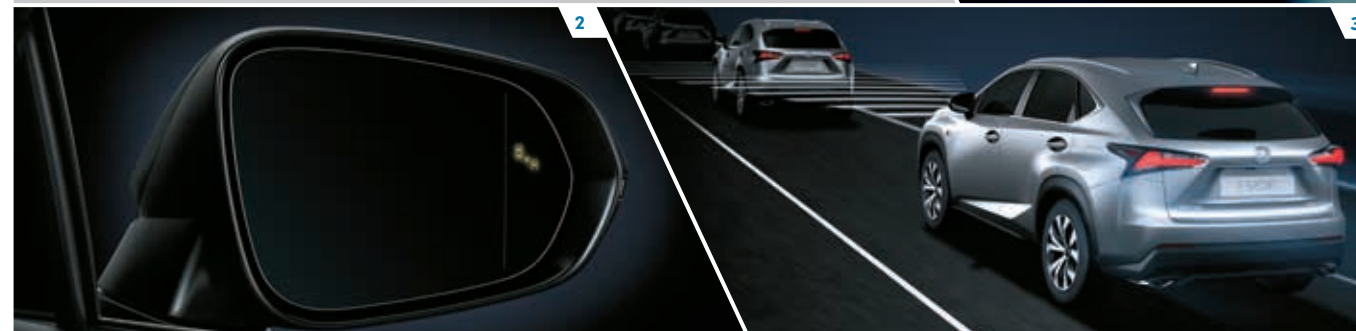

2 / Blind Spot Monitor* Radar devices mounted in the rear bumper detect vehicles in adjacent lanes that are not visible in the door mirrors. If the driver is indicating to change lane, and a vehicle enters the blind spot, the Blind Spot Monitor instantly activates a warning signal in the relevant door mirror.

3 / Adaptive Cruise Control* To help reduce driver fatigue, Adaptive Cruise Control (ACC) maintains a set distance between the NX and the vehicle ahead, even if that vehicle varies its speed or comes to a complete stop. Once the road is clear, ACC automatically returns to the originally specified cruising speed.

4 / Automatic High Beam* At night, Automatic High Beam uses a camera mounted behind the rear-view mirror to automatically switch to low beam when it detects the lights of either an oncoming or preceding vehicle. This reduces the chance of accidentally dazzling other drivers should you forget to switch off the high beam headlights.

5 / Rear Cross Traffic Alert* When reversing, for instance in a busy car park, the Rear Cross Traffic Alert (RCTA) function uses the Blind Spot Monitor radar to detect vehicles approaching the difficult-to-see area behind the vehicle. When a vehicle is detected, the RCTA function alerts you with a visual display in the door mirrors and a buzzer.

* Available as an option, part of a pack or standard on specific grade(s).

1 / LED low beam / eco DRL

LED low beam and halogen high beam headlights combine with energy saving Daytime Running Lights (DRL) on the S grade. Designed in the signature Lexus L shape, these Daytime Running Lights ensure optimum environmental performance.

2 / LED low beam / full DRL All grades above S grade benefit from full LED illumination of the L-shaped Daytime Running Lights.

3 / LED fog lights LED front fog lights – with an innovative new cornering light function, standard on Luxury, F Sport and Premier grades.

4 / Triple LED 'L' beams / full DRL Jewel-like, triple 'L' LED headlights use the same light source for high and low beam. Specified exclusively on F SPORT and Premier grades the NX's impressive aura is enhanced by L-shaped full LED Daytime Running Light.

5 / LED rear lights The rear light cluster combines elegant LEDs arranged in Lexus signature 'L' form, with no visible gap for the tailgate. Thick-wall moulding technology gives a crystal appearance, and a strikingly bold presence when not illuminated.

6 / Advanced door mirrors* Designed to reduce wind noise, heated door mirrors incorporate an indicator, Blind Spot Monitor and Panoramic View Monitor. Electro chromatic (auto-dimming) technology reduces dazzle at night, and the mirrors fold electrically for negotiating narrow spaces.

** Available as an option, part of a pack or standard on specific grade(s).*

EXTERIOR FEATURES

Standard Wheels

1 / 17" alloy wheels on the S grade, these lightweight and aerodynamic 10-spoke deep gloss wheels are equipped with 225/65 R17 tyres for low running resistance and excellent functionality.

2 / 18" alloy wheels SE & Luxury grade models benefit from an intricate u-shaped spoke design creates a sharp and radical profile, while 225/60 R18 tyres complete the bold sports look.

3 / 18" alloy wheels On Premier grade this dramatically styled wide-spoke design gives your NX a feeling of sophisticated sportiness.

4 / 18" F SPORT alloys For an exciting new F SPORT look, these alloy wheels contrast black gloss highlights with machined spoke detail.

Optional Wheels

5 / 18" alloy wheels The black mirror chrome finish and high performance 10-spoke design create an unmistakable look of urban sophistication. Optional on all grades except S.

6 / 18" black machined (5 double spoke) Sporty multi-spoke design in a gloss black finish with individual spokes machined to expose the underlying alloy. Optional on all grades except S.

7 / 18" silver machined (5 double spoke) A sports inspired multi-spoke design highlighted by its reflective silver finish and machined face on alternating spokes. Optional on all grades except S.

1 / Panoramic roof* This large glass, factory-fitted panoramic roof adds a feeling of freedom, extra headroom and sunshine to the NX cabin. The panoramic roof is fitted with an electric sliding blind to shade you should the sun become too intense.

2 / Welcome illumination As you approach the NX with the key in your pocket or bag, gentle lights on the door handles illuminate to welcome you, followed by the daytime running lights as you open the door.

3 / Privacy glass* The rear side windows and tailgate window are treated with a reflective tint, which provides passengers with extra privacy. This does not, however, restrict the view from inside the NX to the world outside.

4 / Power tailgate* A remote controlled tailgate ensures convenience, especially when your arms are full of shopping. It also remembers how far you usually open it and automatically stops at this point.

5 / Aluminium roof rails* Extruded aluminium roof rails are available on the NX. Enhancing the crossover's overall look, they offer sports functionality for transporting skis, bikes or surfboards.

Not available with Panoramic roof

5 / Sunroof* An electric, tilt and slide, glass sunroof adds a feeling of freedom, spaciousness and light to the NX.

* Available as an option, part of a pack or standard on specific grade(s).

EXTERIOR FEATURES

1 / Style pack** Front skirt, rear skirt, side steps. (Not available on F Sport)

2 / Parking pack Front and rear parking sensors. (Available for S & SE Grades).

3 / Towing pack** Detachable tow bar with either 7- or 13-pin electrics (not available on S grade. Not compatible with Style Pack).

4 / Protection pack* Mud flaps, cargo net, bumper protection plate, rubber floor mats, boot liner.

* Available as an option, part of a pack or standard on specific grade(s).

** Available as an accessory.

1 / Front seats Sumptuous front seats make use of the 'integrated foaming' production process, first introduced on F SPORT models. This motorsport-inspired technology allows greater comfort and lateral support than is possible with conventional upholstery methods.

Ergonomic design Seat cushion shape and firmness have been optimised to reduce pressure on the sensitive ischial region. For extra comfort, long reach seat adjustments also accommodate larger European physiques.

2 / Heated / ventilated seats* In combination with leather upholstery, the driver and front passenger can heat or ventilate their seats. Heated seats are also in the SE grade with fabric seats, ventilated, only on Premier grade. This adds to the sense of luxury, especially in extreme weather conditions.

3 / Heated steering wheel For added comfort in colder conditions, the steering wheel can be heated on Premier grade. The steering wheel heater is activated by a switch and turns off automatically after a pre-set time.

4 / Leather steering wheel A beautifully crafted leather steering wheel features finger rests and a cross-section optimised to fit comfortably in your hands. Integrated switches control - where specified - audio, telephone, multi-information display, ACC and Lane Keeping Assist.

5 / Seat adjustment* In addition to excellent front and rear leg room, both front seats are electrically adjustable in eight directions for even more comfort, while lumbar support and memory settings are available.

* Available as an option, part of a pack or standard on specific grade(s).

INTERIOR FEATURES

1 / S-Flow climate control Powerful, dual-zone air conditioning is also highly energy efficient thanks to S-Flow which intelligently provides climate control only to occupied seats.

2 / Smart entry* Approach the NX with the key in your pocket and all four door handles gently illuminate to greet you, unlocking when touched. Beautifully sculpted, they have no keyhole, a world-first for this kind of door handle.

3 / Illuminated scuff plates** Lexus scuff plates add a stylish design feature while also protecting the door sill paintwork. Their brushed aluminium finish is highlighted by subtle logo illumination.

4 / Flexible space A practical 60:40 split folding rear seat comes standard on all NX models, which allows easy stowage of larger items like a racing bike or surfboard. With all rear seats folded down there is room to carry bulky objects.

5 / Intelligent cabin lighting Underlining our philosophy of 'seamless anticipation', to avoid you having to fumble in the dark, the intelligent overhead cabin light senses your fingertip and switches on automatically.

6 / Smart console box Inspired by traditional Japanese wooden boxes, a small lined container on the centre console is perfect for storing small items like tickets and coins. The underside of the detachable lid functions as a vanity mirror.

7 / Electric parking brake For added convenience and safety, the Electric Parking Brake switch is located on the centre console (close to the gearshift and Drive Mode Select) in order to improve usability.

* Available as an option, part of a pack or standard on specific grade(s).

** Available as an accessory.

1 / Lexus Media Display The NX is available as standard with a Lexus Media Display, which features a 7-inch screen and a rotary dial to adjust audio or climate settings. Compatible smartphones can be 'mirror linked' to the display. Features also include:

- Parking Assist Monitor Engage reverse and the view behind the car is relayed to the Lexus Media Display.
- 8 Speaker Pioneer® Audio with DAB tuners An 8-speaker Pioneer® audio system is fitted as standard. This features an AM/FM RDS tuner, CD player and Bluetooth® connectivity.

2 / Lexus Navigation The NX can be specified with Lexus Navigation. This works via the centrally positioned Lexus Media Display. It is fast, user-friendly and offers a great variety of mapping options.

3 / Lexus Premium Navigation Standard on the Premier and optional on the F SPORT the Lexus Premium Navigation with vivid 3D graphics and many mapping options, the 8-inch screen is operated by Touch Pad or voice commands. The system can even generate a QR code for your smartphone, to help you reach your final destination on foot. Features also include:

- Touch Pad – Another Lexus first, Touch Pad with Remote Touch Interface lets front seat occupants interact intuitively with the central 8-inch multimedia display. Ergonomically designed, it is as easy to use as a smartphone or tablet.
- Lexus Connected Services – The new NX offers services like Online Search, Google Street View®, Panoramio® or Connected Traffic. For extra convenience you can even forward a route from your laptop or tablet to the NX's navigation system.
- 10-Speaker Pioneer® Audio with DAB tuners – The 10-speaker upgrade has as a DVD player and offers greater fidelity with 16 cm speakers in the front doors.
- Parking Assist Monitor – With the upgraded Lexus Premium Navigation specified, on-screen guides are additionally displayed to assist parking.

AUDIO AND MULTIMEDIA

1

2

3

4

5

6

1 / Mark Levinson® The 14-speaker Mark Levinson® Premium Surround system with GreenEdge™ technology is tailored to the acoustic properties of the NX. It delivers a peerless 7.1-channel digital home-theatre experience enhanced by Clari-Fi™ that rebuilds sound lost in MP3 digital compression.

2 / Panoramic View Monitor On the Premier grade driving in confined spaces is made easier, four cameras provide a near-360° view around the entire vehicle. A Lexus first, Panoramic View Monitor also creates a virtual 3D view of your NX, with on-screen guides to assist close-quarter manoeuvring in the city.

3 / Colour Head-Up Display Available on the Premier grade vehicle data is projected in colour directly onto the windscreen. This extra-wide 6.2" Head-Up Display lets you check data like navigation commands or audio settings without taking your eyes off the road ahead.

4 / Wireless Charger Charge compatible smartphones or other electronic devices using the inductive wireless battery charger, conveniently positioned in the NX's centre console box. Some mobile phones which are not compatible (e.g. Apple iPhones), can be fitted with compatible wireless charging covers, available from numerous online retailers.

5 / Entertainment System A fully integrated rear seat entertainment system available as an accessory features a multi-purpose docking station that is compatible with a 7" DVD player and iPad® holder. Check with your local Centre for grade compatibility.

6 / Lexus Hotspot Lexus Hotspot is an optional accessory that turns your NX into a mobile WiFi hotspot. When in a 2G/3G area, it enables connection for up to five devices such as tablets, phones and laptops and supports in-car interaction between them. The system uses a SIM card of your choice and wires into the crossover's electrics for constant power.

Tuned by the team that developed the LFA supercar and RC F high performance coupé, the new NX F SPORT model carries the spirit of these two amazing Lexus cars. Now available in 300h and 200t drive trains with exclusively designed sports-tuned suspension and performance dampers as standard – it can also be specified with the option of Adaptive Variable Suspension and SPORT S+ mode for more engaging performance.

1 / F SPORT badge Although discreet, the F SPORT logo is a badge of great distinction. The 'F' refers to the birthplace and primary testing site of our high-performance F SPORT cars: Fuji Speedway, located near Mount Fuji.

2 / 18" F SPORT alloys For an exciting new F SPORT look, these alloy wheels contrast black gloss highlights with machined spoke detail.

3 / Black mirror housing Destined to attract great attention, the new NX F SPORT has black door mirror housings. These contrast with the F SPORT styling and underline the dynamic intentions of this striking new crossover.

4 / F SPORT design The new NX F SPORT is unmistakably dynamic, with a bold and distinctive front spindle grille featuring special 'L-mesh' inserts. The lower front spoiler features an aerodynamic lip for increased down-force, and a large lower grille opening.

F SPORT EXTERIOR DESIGN

1 / 'Dark Rose' leather upholstery Vibrant 'Dark Rose' leather upholstery (with a black roof lining) is the Optional signature interior colour on the NX F SPORT. Exclusive new F SPORT seats feature 'integrated foaming' technology for added support while cornering. Silver coloured, carbon-look inlays perfectly complement the drilled sport pedals, scuff plates and other F SPORT interior trim elements. Precise 'dual-red' stitching gives an extra dynamic look to the seats, dashboard and gearshift.

2 / Drilled sport pedals Offering excellent grip characteristics, drilled aluminium pedals reflect the motorsport design heritage of the new NX F SPORT models.

3 / F SPORT scuff plates Front door scuff plates provide durable protection. Finished with a brushed aluminium look, they are inscribed with the Lexus logo in jet black.

4 / G-Sensor For a more engaging drive, a new G-Sensor displays the NX F SPORT's lateral and longitudinal G-forces in the multi-information display. The screen also displays the steering angle, throttle position, and hydraulic brake pressure.

5 / F SPORT steering wheel Featuring the F SPORT logo, this beautifully crafted steering wheel was inspired by that of our iconic LFA supercar. Finished in perforated leather, the F SPORT gearshift design matches the steering wheel to create an exciting sports look.

F SPORT INTERIOR DESIGN

1 / Front chrome trim Reflecting the Lexus concept of refined design, the chrome garnish adds extra style to the bumper's powerful shape.

2 / Side chrome trim A bold dash of chrome to emphasise the NX's sculpted urban styling.

3 / Rear boot trim Subtle, yet decidedly stylish. The chrome garnish introduces an extra design detail to your car's rear-end design.

4 / Boot mat Stylish, hard-wearing textile mat to protect the luggage space carpets. Its tailored design fits around or across the rear seats when one or both are folded flat.

ACCESSORIES

1 / Foldable rear bicycle rack The safe way to transport one or two bicycles including mountain, sports and e-bikes. The modern stand-alone design allows tilting for boot access even when loaded and is fully foldable for easy installation, handling and storage. It features security locking for bike to carrier and carrier to car and has an integral lights and licence plate holder with a 13-pin socket.

2 / Cross bars For use with your car's pre-fitted roof rails. The cross bars lock onto the rails and form a secure base for a wide range of carrying attachments. Requires roof rails to be fitted as standard (all grades except S).

3 / Bike holder (roof)* The lockable lightweight design has special grips to secure both the bicycle wheels and the frame. Conveniently, the frame grip can be adjusted at roof height.

4 / Luggage box* Streamlined for aerodynamic efficiency, but with a capacious 410-litre volume. The box opens from both sides for easy loading, has multi-point central locking and is finished in silver grey with an 'aeroskin' textured lid.

5 / Ski/snowboard holder* Lockable holder with a soft grip to secure skis or snowboards without damaging them. Medium size holds 4 pairs of skis or 2 snowboards.

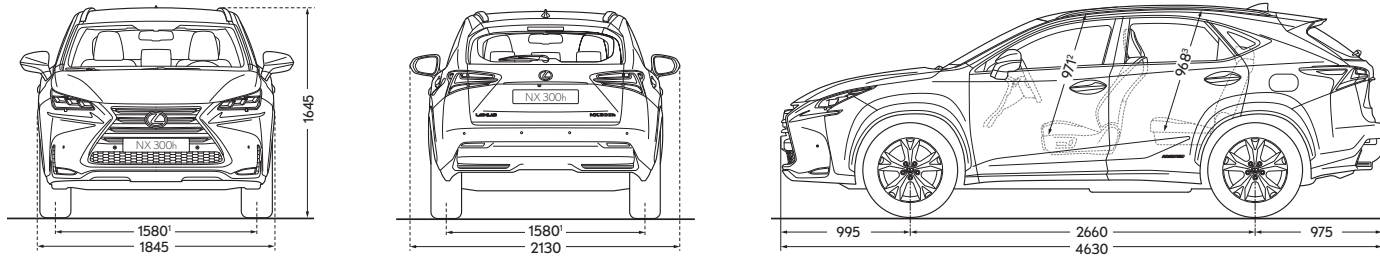

* Requires cross bars (sold separately)

¹18" wheels
²When specified with a sunroof the front headroom figure is 950 and when specified with a panoramic roof it is 976.
³When specified with a sunroof the rear headroom figure is 967 and when specified with a panoramic roof it is 938.

TECHNICAL DATA

ACTIVE SAFETY AND DRIVING DYNAMICS

- Active brake lights
- Braking, stability, steering and traction systems¹
 - ABS / BAS / EBD / ECB-R / EPB / EPS / TRC / VSC
- Drive Mode Select
 - ECO / NORMAL / SPORT
- EV (Electric Vehicle) Mode
- Hill-start Assist Control (HAC)
- Tyre Pressure Warning System (TPWS)
- Adaptive Cruise Control with Pre-Crash Safety System (ACC/PCS)

PASSIVE SAFETY

- 8 airbags in total
 - driver and front passenger head and side airbags, driver knee airbag, front passenger cushion airbag and full-length curtain shield
- Airbag cut-off switch, front passenger
- Audible and visual front seatbelts reminder
- ISOFIX attachment, outer rear seats
- Pedestrian protection
 - impact absorbing structure to lessen injuries
- Seatbelt pre-tensioners, front and rear outer seats
- Whiplash Injury Lessening (WIL) front seats with active headrests
- Space Saver spare wheel

EXTERIOR

- Antenna, shark fin design
- Door handles
 - keyhole-less design and puddle light
 - seamless and dynamic design
- Door mirrors
 - electrically adjustable, auto-folding and heated
- Illuminated entry system
- Lexus spindle grille
- Paintwork with 'self-restoring coat'
- Rear combination lights, LED
 - including rear fog and high-level brake
- Side windows frame, chrome edging
- Water-repellent glass, front door windows
- Wheel arches, with protective mouldings

SECURITY

- Alarm and immobiliser
- Auto door locking
- Double door lock

AUDIO, COMMUNICATION AND INFORMATION

- 4 x dial meters instrumentation (Optitron)
 - 3-dimensional main dials with non linear scaling
 - metallic faces and silver ornamentation
- 4.2" colour TFT multi-information display
- 8" central, fixed colour display screen
 - controlled by rotary dial
- Analogue clock
- Eco driving indicator
- Power meter
- Steering wheel mounted controls

INTERIOR COMFORT AND CONVENIENCE

- 12V front power outlet
- Electrically operated windows, front and rear
- Electronic climate control
 - 2-zone / automatic air-recirculation control
 - pollen removal and deodoriser / S-Flow
- Front centre armrest with storage box and 2 cup holders
- Push start button
- Rear centre armrest with storage space and 2 cup holders
- Rear seat bench, 60:40 split-folding (manual operation)
- Side indicators, one-touch 3 x repeat with auto return

S (4X2 ONLY)

- Standard features, plus:
- 17" Alloys - Design 1

Options:

- **Metallic Paint**
- **Lexus Navigation**
- **Parking pack**

Note: no towing capacity on 'S' Grade

SE (4X4 ONLY)

- S features, plus:
- Integrated roof rails
 - 18" Alloys - Design 2
 - Rain Sensing Wipers
 - Heated Front Seats
 - Towing Capacity 1,500kg (braked trailer)
 - Towing Capacity 750kg (unbraked trailer)

Options:

- **Metallic Paint**
- **Lexus Navigation**
- **Parking pack**

LUXURY (4X4 ONLY)

- SE features, plus:
- LED Fog lamps with low speed cornering function
 - Privacy Glass
 - Heated Electric Leather Seats (no lumbar support or memory)
 - Silver Trim inserts and scuff plates
 - Parking Sensors
 - Auto-dimming Interior Mirror
 - Smart Entry (all doors)

Options:

- **Metallic Paint**
- **Convenience Pack: Power Tailgate and Wireless Smartphone Charger**
- **Lexus Navigation**
- **Sunroof**
- **Panoramic Roof**

F SPORT (4X4 ONLY)

- Luxury features, plus:
- 18" Alloys - Design 4: Two Tone
 - LED High Beam and Low Beam
 - F Sport Styling elements - interior and exterior
 - F Sport Heated Electric Leather Seats with lumbar support
 - F Sport suspension
 - Performance dampers
 - Electric steering column adjust
 - Power tailgate and wireless smartphone charger

Options:

- **Metallic Paint**
- **Lexus Navigation**
- **Premium Navigation**
- **AVS**
- **Sunroof**
- **Panoramic Roof**

PREMIER (4X4 ONLY)

- Luxury features, plus:
- 18" Alloys Design 3
 - LED High and Low Beam headlights with Auto High Beam
 - Electrochromatic side mirrors
 - Ventilated Leather Seats with Lumbar support and Driver Seat Memory
 - Card Key
 - Lexus Premium Navigation
 - Mark Levinson Audio
 - 360 Panoramic View Camera
 - Lane Keep Assist (LKA)
 - Head Up Display (HUD)
 - Heated Steering Wheel
 - Electric Steering Column Adjust
 - Smart Entry, Power Tailgate and Wireless Smartphone Charger
 - Blind Spot Monitor (BSM) with Rear Cross Traffic Alert (RCTA)

Options:

- **Metallic Paint**
- **Sunroof**
- **Panoramic Roof**

¹ ABS = Anti-lock Braking System / BAS = Brake Assist System / EBD = Electronic Brake-force Distribution / ECB-R Electronically Controlled Braking - Regeneration / EPB = Electric Parking Brake / EPS = Electric Power Steering / TRC = Traction Control / VSC = Vehicle Stability Control

STANDARD EQUIPMENT FOR ALL GRADES

ADDITIONAL EQUIPMENT BY GRADE

FEATURES

17" alloy wheels (225/65 R17)
18" alloy wheels (225/60 R18)
18" alloy wheel, black machined 5 double spoke
18" alloy wheel, silver machined 5 double spoke
18" alloy wheel, dark grey 10 spoke
Adaptive Cruise Control
Smart entry system
Anti-theft system, with intrusion sensor, tilt sensor and glass breakage sensor
Heated front seats
Heated steering wheel
Rear seats, 60:40 split-folding
Rain sensing windscreen wipers
Parking assist sensors, front + rear
Rear-view monitor
Lexus Navigation
Lexus Premium Navigation
Tuner with DAB technology
Mark Levinson Premium Sound System
Lexus Entertainment System, available in six different configurations of DVD player and iPad holder
Glass sunroof, electric tilt/slide
Panoramic roof
Headlight cleaners, high pressure
LED front fog lights with cornering light function
Convenience Pack, including power tailgate and wireless smartphone charger
Protection Pack, consisting of mud flaps, boot liner, cargo net, bumper protection plate and rubber floor mats
Style Pack, consisting of front and rear skirts and side steps (not compatible with detachable tow bar)
Detachable tow bar, with a choice of either 7-pin or 13-pin wiring (not compatible with Style Pack)
Metallic paint

TECHNOLOGY KEY FEATURES

Lexus Media Display

- Lexus Media Display with:
 - enhanced multi-information & central display screen functionality
 - mirror-linking functionality
 - 8-speaker Pioneer® audio system
 - AM/FM/DAB tuner
 - AUX socket, VTR compatible & 1 x USB port
 - Bluetooth® mobile phone and audio connectivity
 - in-dash, single-slot CD player
 - rear-view monitor

Lexus Premium Navigation (LPN)

- Lexus Premium Navigation
 - advanced navigation system using SD card technology
 - operated by Touch Pad
- Lexus Connected Services
- Multiple online applications compatible
- plus:
 - 10-speaker Pioneer® audio system upgrade
 - additional USB port and DVD player
 - parking assist monitor, with on-screen guides

LPN & Mark Levinson® upgrade

- Standard on Premier Grade
- Contents of pack immediately above with 14-speaker Mark Levinson® Premium Surround
 - with Clari-Fi™ technology (replacing 10-speaker upgraded Pioneer® audio system)

Sensor technology

- Rain sensing windscreen wipers
- Rear-view mirror, electro chromatic (auto-dimming)

Pre-Crash Safety (PCS)

- Adaptive Cruise Control (ACC), all speed
- PCS system with millimetre-wave radar

High-tech features

- LED headlights additionally specified with
- Automatic High Beam (AHB)
 - Lane Keeping Assist (LKA)
 - Head-Up Display (HUD)
 - full colour, wide display

Please refer to detailed spec listing pages 48-50 to see grade-applicability of above features

EXTERIOR COLOURS

* Solid colour.

** Please note: this colour is not available on F Sport.

Please note: due to printing variances, actual paintwork colours may vary slightly from those illustrated.

EXPERIENCE THE NEW NX

INFORMATION CONTAINED IN THIS BROCHURE

Accuracy and Specification

All information contained in this brochure was correct at time of going to print. Please note that while every effort is made to reproduce accurate information, we reserve the right to change specifications, equipment and availability without prior notice. Images shown in this brochure may not be of UK models (for example, they may show left hand drive vehicles) and may illustrate equipment that is only available on selected grades. Therefore, this brochure cannot be regarded as infallible and, as such, does not constitute an offer for sale of any particular vehicle shown.

Fuel consumption & emissions data

All mpg, mph and CO₂ figures quoted in this brochure are sourced from official EU-regulated test results. These are provided for comparability purposes only and may not reflect your actual driving experience. Fuel consumption and emissions vary considerably depending upon driving style, conditions, vehicle load and speed. All mpg and CO₂ figures quoted relate to combined electric and petrol running modes.

In order to allow consumers to compare and make an informed choice between one vehicle and another, there is a European Commission standard (93/116/EC and 692/2008) to measure fuel consumption. This common standard must be adhered to by all manufacturers selling motor vehicles in the EU and is the basis for all published fuel consumption figures. For information on how fuel consumption tests are performed please visit: <http://www.dft.gov.uk/vca/fcb/faqs-fuel-consumption.asp>.

Please note that any references to "zero emissions" contained in this brochure refer to the vehicle running in Electric Mode only. This is measurable at the point of driving only and is reliant upon speed, distance covered and driving conditions.

Safe driving

Lexus is committed to promoting safe and responsible driving at all times. None of the images contained in this brochure should be taken to promote any unsafe driving

practice. All sound, entertainment and navigation accessories that may be included in our vehicles should always be used alongside legal and attentive driving. Additionally, any driver assistance and other safety features included in our vehicles are not designed to substitute safe and careful driving.

End-of-life vehicles

Taking care of the environment is a priority for Lexus. We strive to minimise the environmental impact of our vehicles throughout their life cycle - from design, production, distribution, sales and service to end-of-life. For more detailed information on environmental performance please visit www.lexus.co.uk.

Arranging a test drive

We hope to have illustrated in this brochure that Lexus creates vehicles of refinement, innovation and style. But only behind the wheel of one of our models can you truly experience the pleasure, performance and seamless anticipation of your needs as a driver at first hand. Simply consult your local Lexus Centre to arrange a test drive.

Further information & contact us

For further information, to find out more about owning a Lexus or simply to locate your local Lexus Centre, please visit our website, www.lexus.co.uk, or call 0845 278 8888.

About Lexus

Lexus is a division of Toyota (GB) PLC. Toyota (GB) PLC is a company registered in England & Wales with company number 0916634 and with its registered office at Great Burgh, Burgh Heath, Epsom, Surrey KT18 5UX.

Toyota (GB) PLC is an introducer appointed representative of Toyota Insurance Management Limited and Toyota Financial Services (UK) PLC, both of which are authorised and regulated by the Financial Conduct Authority. Toyota (GB) PLC is a member of the Society of Motor Manufacturers & Traders.
