

LEXUS RX

 LEXUS

AMAZING IN MOTION

For the latest RX 450h we challenged ourselves with creating the best, most innovative, luxury crossover ever built. We started by designing a bold Lexus 'face' with class-leading aerodynamics. Next, our engineers developed a second-generation Lexus Hybrid Drive. Featuring advanced technologies like Remote Touch (available on Luxury grade and above) and Head-Up Display (on F SPORT and Premier grades), it's extraordinarily enjoyable to drive. To achieve this, we tuned it at the Nürburgring, proving - quite literally - that we don't stop until we create amazing.

BREAKTHROUGH THINKING

The first RX crossover, introduced in 1998, broke new ground by combining the fun and flexibility of a Sports Utility Vehicle with the handling and refinement of a luxury saloon. Later, in 2004, we pioneered the world's first premium hybrid, the breakthrough RX 400h crossover. Extending our leadership in the crossover segment, the latest RX 450h delivers dynamic performance, combined with unmatched comfort. Built at the Lexus 'Eco Factory' in Kyushu, Japan, the latest RX is destined to reset benchmarks for driving pleasure, comfort and leading edge refinement.

LEXUS

RX / STYLE / 06

THE FACE OF PROGRESS

Viewed from the side, the long, sleek cabin of the RX 450h creates a powerful presence and promises generous interior space. Featuring strong and expressive L-finesse (L= Leading edge) front styling - with a distinctive Lexus signature 'spindle grille' - this stunning crossover is more dynamic than ever. Arrowhead-shaped LED daytime running lights underline the crossover's distinctive look. Class-leading aerodynamics result from features like smooth underbody covers, aerodynamic winglets on the rear lights and the integration of the wiper blade inside the rear spoiler.

JEWEL-LIKE

ENHANCE VISION

RX 450h: THE POWER OF h

The RX 450h delivers amazing Full Hybrid performance, yet is incredibly easy to drive. Simply press the accelerator to achieve 0-62 mph in only 7.8 seconds, while using up to 44.8 mpg of fuel on the combined cycle. Powered by a potent second-generation Lexus Hybrid Drive, this Lexus intelligently unites a 3.5-litre V6 petrol engine with two high-output electric motors. Push the EV (Electric Vehicle) button to drive in near silence, using no petrol and emitting zero CO₂ or NO_x. The RX 450h is also practical; the hybrid battery never needs external charging and occupies minimum room, resulting in generous luggage space.

HOW DOES LEXUS HYBRID DRIVE WORK?

1 / Starting up, driving off When starting off, the powerful electric motors can propel the RX 450h up to 25 mph with electric power supplied by the hybrid battery. At this point the vehicle is almost silent, uses no petrol and produces zero emissions.

2 / Normal driving conditions At speeds above 25 mph the ultra-smooth 3.5-litre V6 direct-injection Atkinson Cycle petrol engine cuts in, almost silently, but still receives assistance from the electric motor when required.

3 / Full throttle acceleration Accelerate and the powerful electric motors instantaneously supplement the 3.5-litre 249 DIN hp V6 petrol engine. Together they deliver a surge of torque for fast linear acceleration precisely when you need it.

4 / Deceleration, stopping, braking When decelerating or coming to a halt, the petrol engine turns off, cutting emissions to zero. Brake, or take your foot off the accelerator, and regenerative braking harnesses the kinetic energy lost in other cars. It converts this into electrical energy for storage in the hybrid battery, which is one reason why you never need to recharge a Lexus Full Hybrid.

DRIVE YOUR LEXUS, YOUR WAY

The Lexus RX 450h allows you to choose between different modes to suit your driving style, or to maximise either the car's efficiency or dynamic abilities.

1 / ECO / EV Mode In ECO mode, engine output, gear selection, air conditioning and heated seats are controlled to reduce fuel consumption. Select EV (Electric Vehicle) mode, and the RX 450h Full Hybrid provides a near-silent drive, using no petrol and emitting zero CO₂ or NO_x. In EV, ECO and NORMAL modes the instruments take on a tranquil blue colour, and the ecometer encourages you to drive more efficiently.

2 / SPORT Mode If you're in a dynamic mood, select SPORT mode and the RX immediately retunes the throttle for rapid acceleration. Switching to SPORT mode illuminates the instruments in a vibrant red.

ENJOY THE ROAD AHEAD

Developed in the world's most advanced driving simulator, and then tested over many hundreds of thousands of kilometres, the RX 450h handles with all the poise and precision of our luxury saloons. While a stiffer chassis and double wishbone rear suspension reduce 'body roll' around corners, innovative all-wheel drive technology delivers superb road holding and confidence over rougher terrain. On the Premier grade, air suspension provides an even more refined drive to help achieve a consistent vehicle height and even lowers the crossover at higher speeds for reduced wind resistance. Vehicle Dynamics Integrated Management (VDIM) anticipates difficult situations, making torque and braking corrections as required.

DYNAMIC F SPORT

The RX 450h F SPORT is dynamic and fun to drive, with assertive front-end styling, mesh intake grilles and darkened 19-inch alloy wheels. Developed by an experienced team of Lexus 'Drive Meisters', the RX 450h F SPORT offers an incredibly precise and engaging drive. The F SPORT model is fitted with front and rear performance dampers to increase handling stability, while SPORT mode offers more responsive acceleration. Inside, the cockpit features leather sports seats with perforations and white stitching, aluminium pedals, metallic inlay panels and scuff plates; with the steering wheel and gearshift finished in perforated leather.

ADVANCED
PERFORMANCE
DAMPERS INCREASE
HANDLING STABILITY

THE NEW RX ADVANCE

Available for a limited period only, the new RX 450h Advance builds upon all the power, handling and performance of the RX 450h Full Hybrid crossover. Outside we've given it a more dynamic look, with a darker Lexus 'spindle grille', LED headlights and exclusive shaded & machined 19" alloy wheels. For a light and airy cabin, the RX Advance is fitted as standard with leather interior and either a large panoramic roof or tilt and slide sunroof.

The perfect partner for business, sport or leisure, the ergonomic cockpit features intelligently positioned controls - enabling a really focused drive. For seamless interaction, Remote Touch lets you control Electronic Climate Control, Full Map Navigation and peerless 15-speaker Mark Levinson® 7.1-channel surround sound.

A NEW LEVEL OF LUXURY

The tranquil cabin of the RX 450h will keep you relaxed and entertained, even on the longest journeys. The sumptuous driver's seat offers extensive electric adjustments. For ease of entry, the seat slides back 50 mm and the steering wheel retracts. For comfort and convenience the rear seats also slide, tilt or fold. Exquisitely stitched leather seating is standard across all grades. Gentle ambient lighting illuminates the start button and gearshift, and storage compartments open and close with the calming motion of a traditional Japanese sliding door. RX 450h quality is overseen by 'Takumi' master craftspeople, and before delivery every car is tested for leaks in a high-pressure water chamber that simulates a tropical typhoon.

PASSENGER AIR BAG

12:00

Extensively tested in Arctic and desert conditions, the RX 450h cabin warms up as quickly as it cools down, while a special filter system reduces pollen, diesel particles and dust. Fitted as standard, the powerful air conditioning features independent control zones that distribute clean air quietly and efficiently throughout the cabin. Precise temperatures are maintained by a variety of sensors. So, if sunshine warms the upper body of driver or passengers, upper and lower temperatures are automatically controlled to compensate. The air conditioning is powered electrically by the hybrid battery, so you can stay comfortable with the engine off.

LEXUS

With a raft of intelligent technology, the RX 450h is extraordinarily enjoyable to drive. From Luxury grade, Remote Touch offers seamless interaction with the navigation display and the Parking Assist Monitor shows live images of the area behind the car. On F SPORT and Premier grades Head-Up Display lets you concentrate on the road ahead.

Advance and Premier grades boast the 15-speaker Mark Levinson sound system as standard. Each custom-engineered loud speaker creates the perfect acoustics and balance for your favourite music, whether it be played via a CD, DVD, auxiliary input or USB port.

INSPIRING TECHNOLOGY

SAFE JOURNEY

Equipped with Vehicle Dynamics Integrated Management and powerful ventilated disc brakes, the RX 450h is engineered to avoid danger. An optional Pre-Crash Safety system uses millimetre-wave radar to detect objects in front of the car and, where necessary, warns the driver and prepares for impact. In the event of a collision, it's comforting to know you're protected by an exceptionally rigid, high tensile steel safety cell.

The ergonomic interior and near-silent cabin of the RX 450h let you concentrate on the road ahead, while low-beam LED headlights offer extremely focused light. To help you see around corners, from Advance grade, an Intelligent-Adaptive Front-lighting System automatically swivels the headlights into approaching bends for improved visibility.

LEXUS

The RX 450h features ten airbags as standard. The breakthrough twin-chamber front passenger airbag 'catches' the occupant on impact, rather like a large baseball glove. Knee airbags fitted in the front supplement seatbelts and front airbags, protecting driver and front seat passenger in a collision. Curtain shield airbags across the side windows also inflate automatically to cushion your head in the unlikely event of the car rolling over. Finally, in developing the RX 450h, we also aimed for the highest level of impact performance. For maximum strength, approximately 42% of the car's body weight is made up of high tensile steel, achieving a lightweight yet exceptionally rigid passenger safety cell.

RX / QUALITY / 30

The award-winning quality of our RX 450h crossover begins at the Kyushu plant, where production is overseen by Lexus 'Takumi' master craftspeople. Inside the plant, we assemble our cars in clean room conditions; employees wear pocketless, anti-static clothing and wash their shoes before entering the line. A water screen - nicknamed Niagara - reduces particles even further. Gleaming paintwork is produced by hand sanding each foundation coat (a time-consuming process normally reserved for coach-built cars). Finally, to check for leaks, every RX 450h undergoes a special 'typhoon test' in a high-pressure water chamber.

REDEFINING QUALITY

REDUCING OUR FOOTPRINT

Everything about the RX 450h is designed to minimise environmental impact. At the end of its life, up to 85% of the car can be recycled, and 95% of the battery can be reused. For instance, the case is reprocessed in steel manufacturing, and the power cells are recycled using an induction-based, vacuum-thermal system pioneered by Lexus. Production at the Kyushu 'Eco Plant' is organised using our world-famous lean manufacturing techniques, with waste being kept to an absolute minimum.

85% OF THE CAR CAN BE
RECYCLED,
AND 95% OF THE BATTERY
CAN BE REUSED

Comprising a 3.5-litre V6 Atkinson Cycle petrol engine and two high output electric motors, the new RX 450h's Lexus Hybrid Drive offers maximum driving pleasure and low environmental impact. Acceleration from 0-62 mph takes only 7.8 seconds, overall emissions are just 145 g/km, and fuel consumption is only 44.8 mpg.

1 / E-Four The RX 450h is fitted with a revolutionary four-wheel drive system called E-FOUR. A light 68 DIN hp electric motor mounted on the rear axle delivers power instantly when required.

2 / Advanced hybrid battery A high-output, nickel-metal hydride (Ni-MH) 288 V battery is located under the rear seats. Without compromising interior space or comfort, the battery is constantly recharged and requires no external charging.

3 / 3.5-litre V6 petrol engine Able to smoothly shut down when not required, the 249 DIN hp V6 engine is tuned for energy-efficient running. An innovative Exhaust Heat Recovery allows the engine to switch off earlier and more often, reducing fuel consumption and emissions.

4 / Eco mode The driver can also activate ECO mode, which retunes the throttle control and the air conditioning to reduce emissions and fuel consumption.

5 / Electric Vehicle (EV) Mode EV mode lets you drive at lower speeds over shorter distances using only electric power. Just touch a button on the centre console and EV is activated.

FULL HYBRID TECHNOLOGY

1 / Remote touch Next generation Remote Touch lets you interact intuitively with the central multimedia display. It is as easy to use as a computer mouse. Standard from Luxury grade upwards.

2 / Head-up display Key vehicle data, such as speed or navigation directions, is projected directly on to the windscreen within your field of vision (standard on F Sport & Premier grades).

3 / USB port and aux socket As standard across all grades, the USB port provides a connection for a variety of multimedia devices, including an iPod® or MP3 player.

4 / Parking assist monitor Engage reverse and the view behind the car is shown on the 8-inch display, complete with on-screen guides to assist parking. Standard from Luxury grade upwards.

5 / 9 or 12-speaker sound system The perfect environment to enjoy music and videos, the RX 450h is available with 9 (SE) or 12 (Luxury/F SPORT) speaker premium audio system.

6 / 15-speaker Mark Levinson® Fifteen custom-engineered loudspeakers provide 7.1-channel surround sound for your favourite music (standard on Advance and Premier grades).

AUDIO, COMMUNICATION AND INFORMATION

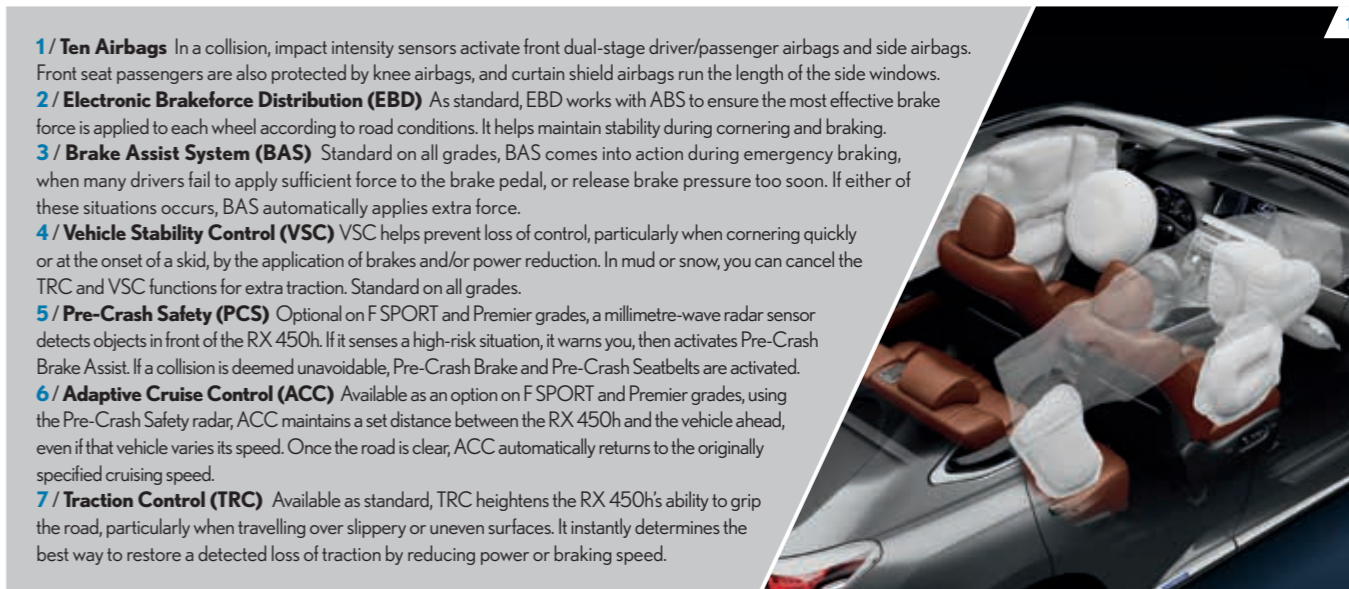

1 / Active stabilisers For even more dynamic control, an active stabiliser system uses electrically adjustable front and rear anti-roll bars to deliver less body lean around corners and precision steering response.

2 / Electronically controlled air suspension Unlike conventional coil springs, air suspension achieves a consistent vehicle height regardless of occupants and luggage. At high speeds, the vehicle automatically lowers, reducing wind resistance and ensuring stability. At the touch of a button, the rear of the RX 450h lowers for easier loading (Premier grade only).

3 / Double wishbone suspension A sophisticated double wishbone rear suspension delivers outstanding performance, saloon-like cornering characteristics and superb straight-line stability.

DYNAMIC PERFORMANCE

1 / Ten Airbags In a collision, impact intensity sensors activate front dual-stage driver/passenger airbags and side airbags. Front seat passengers are also protected by knee airbags, and curtain shield airbags run the length of the side windows.

2 / Electronic Brakeforce Distribution (EBD) As standard, EBD works with ABS to ensure the most effective brake force is applied to each wheel according to road conditions. It helps maintain stability during cornering and braking.

3 / Brake Assist System (BAS) Standard on all grades, BAS comes into action during emergency braking, when many drivers fail to apply sufficient force to the brake pedal, or release brake pressure too soon. If either of these situations occurs, BAS automatically applies extra force.

4 / Vehicle Stability Control (VSC) VSC helps prevent loss of control, particularly when cornering quickly or at the onset of a skid, by the application of brakes and/or power reduction. In mud or snow, you can cancel the TRC and VSC functions for extra traction. Standard on all grades.

5 / Pre-Crash Safety (PCS) Optional on F SPORT and Premier grades, a millimetre-wave radar sensor detects objects in front of the RX 450h. If it senses a high-risk situation, it warns you, then activates Pre-Crash Brake Assist. If a collision is deemed unavoidable, Pre-Crash Brake and Pre-Crash Seatbelts are activated.

6 / Adaptive Cruise Control (ACC) Available as an option on F SPORT and Premier grades, using the Pre-Crash Safety radar, ACC maintains a set distance between the RX 450h and the vehicle ahead, even if that vehicle varies its speed. Once the road is clear, ACC automatically returns to the originally specified cruising speed.

7 / Traction Control (TRC) Available as standard, TRC heightens the RX 450h's ability to grip the road, particularly when travelling over slippery or uneven surfaces. It instantly determines the best way to restore a detected loss of traction by reducing power or braking speed.

ADVANCED SAFETY

- 1 / Easy Loading** A powered tailgate adds extra convenience. (Standard on Luxury grade and up)
 - 2 / Xenon headlights** High Intensity Discharge xenon headlights, with auto-levelling, high-pressure cleaners, and LED daytime running lights. Standard on SE and Luxury grade models.
 - 3 / Intelligent LED headlights** An Intelligent-Adaptive Front-lighting System automatically swivels the headlights into approaching bends. Low-beam LED headlights offer very focused light, use less energy and last longer than conventional bulbs. Fitted as standard to Advance, F Sport and Premier grades.
 - 4 / Sunroof** *The electric, tilt and slide glass sunroof lets the desired amount of light and air into the cabin with convenient one-touch control.
 - 5 / Parking sensors** **Discreet sensors in the front and rear bumpers continuously calculate the distance to the nearest object. The intensity of audio and visual warnings indicates available space.
 - 6 / Panoramic roof** ***A large, glass panoramic sunroof adds a feeling of freedom and spaciousness to the cabin of the RX 450h.
 - 7 / Auto-folding, dimming and heated door mirrors** These can be folded in electrically to help negotiate narrow spaces. Electrochromatic technology dims the mirrors to prevent the risk of being dazzled.
- * Standard on Advance and Premier grades. Optional on Luxury and F SPORT grades.
 ** Not available on SE grades.
 *** Standard on Advance grade. Optional on Luxury and F SPORT grades.

EXTERIOR FEATURES

- 1 / 18" alloy wheels (SE Grade)** Lightweight 5-spoke design 18-inch alloy wheels have a beautiful silver metallic finish. Specified with 235/60 R18 tyres, this combination contributes to lower CO2 emissions and fuel consumption.
- 2 / Darkened 19" alloy wheels (Luxury Grade)** These 15-spoke, 19-inch alloys have been given a sporty new look with a subtle, light grey shading. They are specified with 235/55 R19 tyres for exceptional roadholding.
- 3 / Unique design 19" alloy wheels (Advanced Grade) (235/55 R19)** With a smoked effect finish, these exclusive shaded & machined alloy wheels complement the grey front grille and exquisite LED headlights to further enhance the powerful design.
- 4 / Darkened 19" alloy wheels (F SPORT Grade) (235/55 R19)** Exclusive 5 twin-spoke F SPORT 19-inch shaded alloy wheels give the car a sporty look on all types of terrain.
- 5 / 19" alloy wheels (Premier Grade)** 10-spoke, 19-inch design that adds to the car's powerful presence. The wheels are fitted with 235/55 R19 tyres for sure-footed grip.

EXTERIOR FEATURES

1 / Leather steering wheel As standard, the 3-spoke leather trimmed steering wheel is high-grip and tactile with buttons for audio, display, phone and voice command positioned close to the thumb tips.

2 / Heated/ventilated seats Driver and passenger seat heaters are standard on SE, Luxury, Advance and F SPORT grades. In addition, Premier grade is fitted with front seat ventilation.

3 / Climate control The cabin can be rapidly cooled or warmed using powerful, two-zone electronic climate control. The system can be powered without the engine running.

4 / Leather seats Sumptuous leather seating is standard, with the highest quality high grain leather standard on Premier grade.

5 / Seat adjustment Eight-way adjustment options help provide the perfect seating position. There is also lumbar support and memory settings. On Premier grade front seats are ten-way adjustable.

6 / Seat flexibility With all rear seats folded down, there's room to carry bulky objects. When the central section is lowered, longer items can be accommodated. With one of the wider rear seats dropped, there's space to stow a mountain bike. In addition, the rear seats slide backwards or forwards and the seatbacks can be reclined.

INTERIOR FEATURES

The RX 450h is also available as an F SPORT grade. With its exclusive mesh spindle grille, the F SPORT makes a bold design statement. A deeper, lower front bumper features integral spoiler and F SPORT foglights.

1 / Exclusive spindle grille The F SPORT has a distinctive mesh spindle grille and aggressive bumper styling. The deeper, lower section incorporates an integral spoiler and round chrome foglights.

2 / F SPORT badge The F SPORT logo is a discreet badge of distinction. Its design is inspired by motorsports and hints at a shared lineage with the Lexus LFA V10 supercar.

3 / Drilled sport pedals With a non slip finish, the drilled aluminium pedals in the RX 450h F SPORT model are comfortable and precise.

4 / Silver trim inlays Silver trim finish inlays perfectly complement the drilled sport pedals, scuff plates and other interior trim elements.

5 / F SPORT steering wheel A bespoke sports steering wheel, complete with F SPORT logo, gives a tangible sense of being at one with the RX 450h F SPORT.

6 / F SPORT leather upholstery Beautiful black leather upholstery, black roof lining and metallic finished dashboard trim have been developed for the RX 450h F SPORT. For a tactile, sporty feel, the gearshift and steering wheel are finished in perforated leather.

STANDARD EQUIPMENT FOR ALL GRADES

ADDITIONAL EQUIPMENT BY GRADE

The **Entertainment Packs** are a new rear-seat Lexus entertainment system that you can configure for complete flexibility - featuring a multi-purpose docking station that is compatible with a 7" DVD player and iPad® holder. The DVD player can be configured in a master/slave arrangement where one DVD plays on both screens, or as a master/master, where each screen can play a different DVD. The iPad® holder can be mounted either landscape or portrait to exactly match your requirements. The dock itself provides all the power to the attachments, with no visible wires and does not affect anti-whiplash head restraints for those sat in the front seats.

1 / DVD player - Features a 7" screen with stereo sound and a remote control, so children can watch without adjusting their seat belts.

- Can be combined as either master/master or master/slave configurations.
- Compatible with wireless headphones for a superb stereo sound.
- Can be removed from car and used at home.

2 / iPad® holder - Clips into docking station for a secure holder for your iPad®.

- Charges your iPad® while docked.
- Can be combined with WiFi hotspot (sold separately) to allow your iPad® to connect to the internet.

3 / Wireless headphones (optional) - Superb stereo sound.

- Independent volume control.
- Automatically shut down to preserve battery life.

Security - DVD and iPad® holder easily removed for security when not in use.

Safety - Meets European crash and impact testing standards.

- Does not affect anti-whiplash seat heated restraints.
- Integrated installation with no trailing wires or cards.

Compatible with iPad® generation 2,3, and 4 only, plus iPad® Air adapter available late 2014. iPad® is a trademark of Apple Inc, registered in the US and other countries.

ENTERTAINMENT PACKS

1 / Protection Pack A set of essential accessories to keep your car looking brand new, including:

- **Protection plate** Designed to protect the rear bumper paintwork against scratching when sliding heavy or awkward loads into the boot.
- **Mud flaps** Lexus mud flaps are especially shaped to fit the wheel arches of your vehicle. They help to maintain the vehicle exterior by protecting against excessive dirt, mud spray and flying stone chips.
- **Rubber floor mats** Black rubber mats for the ultimate in tough carpet protection against muddy or wet shoes and the ingress of dirt, sand and dust.
- **Boot liner** Made of plastic and with a raised lip around the edge, the boot liner provides tough protection for carpets against mud, dirt and liquids. Its non-slip surface pattern helps prevent bags and cases sliding around.
- **Vertical cargo net** Strong, woven, black nylon net with two compartments for holding small items securely in your car's boot area.

2 / Towing Pack

The detachable towing hitch is especially designed so that you can easily attach the towball whenever you need a towing capability and remove it again when you don't. The system is lockable, features a tough anti-corrosion surface treatment and has a towing capacity of up to 2000kg with a braked trailer, and 750kg unbraked. Available with a choice of dedicated 7- or 13-pin wiring kits.

ACCESSORY PACKS

1/2 Cross bars + roof box The lockable lightweight aluminium roof rack is easy to install and use. It combines with a wide range of optional carrying attachments. The attachments include ski, bike, boat and surfboard holders, a luggage box (as shown) and a ski box.

3 / Rear bicycle holder A lightweight high strength steel design for securely carrying two bicycles. It attaches to a Lexus towing hitch and features security locking plus an integral lights and licence plate holder.

4 / Full height dog guard Clipping neatly into place, the floor to ceiling dog guard creates a secure travelling space, preventing access to the passenger area.

5/6/7 Child restraint seats The range of Lexus child restraint seats includes options for each age group. There's the Baby Safe Plus for babies from 0 - 9 months, the Duo Plus for children of 9 months 4 years and the Kid for children aged 4 - 12 years.

TOURING

1 / Front & rear mud flaps Lexus mud flaps are especially shaped to fit the wheel arches of your vehicle. They help to maintain the vehicle exterior by protecting against excessive dirt, mud spray and flying stone chips.

2 / Stainless steel rear bumper protection plate Designed to protect the rear bumper paintwork against scratching when sliding heavy or awkward loads into the boot. It is also particularly effective for guarding the paintwork of the boot area.

3 / Side mouldings Side mouldings provide your vehicle with an extra layer of protection to help guard the side panels against minor bumps and scrapes and are painted to match the body colour of the vehicle.

4 / Reversible mat This reversible mat has carpet on one side and plastic on the other, providing a choice of the most appropriate form of protection for the boot. Also includes bumper protecting flap.

5 / Cargo liner Tailored to fit the boot perfectly and provide protection against dirt and spills. Features a special anti-slip surface pattern to help stop luggage moving.

LEXUS Hotspot* Lexus Hotspot gives you internet access and effectively turns your car into a mobile hotspot with a SIM card of your choice.

The Hotspot connects up to five WiFi capable devices including laptops, tablets, smartphones, iPads, iPhones and game systems and also enables in-car interaction.

* Model shown is the Lexus IS.

SAFETY AND TECHNOLOGY

ROADSIDE ASSISTANCE

We want to ensure that you enjoy driving your Lexus anywhere in Europe with complete peace of mind. This is why we provide you with Lexus Roadside Assistance 24 hours a day, 365 days a year in both the UK and Europe*. Your membership gives you personal cover. That means you are entitled to the full range of benefits and services as the driver or passenger of any vehicle, not just while driving your Lexus. Your partner is also eligible for the same cover provided you both reside at the same address.

To make use of this added bonus, please register your partner with Lexus Roadside Assistance on 0800 169 0393.

* Lexus Roadside Assistance is provided for the first three years of owning the car

THREE-YEAR COMPREHENSIVE WARRANTY

Any defect that is attributable to a manufacturing or assembly defect under normal use is covered by your warranty. This provision applies for a period of three years or 60,000 miles, whichever comes first, with no mileage limit for the first year. In the event of a breakdown immobilising your Lexus, the cost of recovering it to the nearest Lexus Centre is also covered if that breakdown is the result of a warrantable defect.

FIVE-YEAR HYBRID COMPONENT WARRANTY

For hybrid models, certain components within the hybrid drivetrain system have a five-year or 60,000 miles warranty, whichever comes first.

THREE-YEAR SURFACE RUST AND PAINTWORK WARRANTY

The three-year, unlimited mileage warranty covers surface rust and paint defects on any painted body panels due to a fault in material or workmanship.

12-YEAR CORROSION PERFORMANCE WARRANTY

A 12-year unlimited mileage warranty covers the vehicle against rust perforation through any sheet metal body panel (subject to certain exclusions specified in the warranty booklet) occurring as a result of a manufacturing or assembly defect in the vehicle. The warranty booklet supplied with each new vehicle gives full details. This warranty is also transferable to subsequent owners.

ACCESSORIES

Please consult your local Lexus Centre for the full specification of approved Lexus Accessory products.

LEXUSCARE®

For us, caring for your Lexus is the equivalent of caring for you, our customer. Each member of the Lexus team has honed their skills and knowledge to ensure that you experience the highest levels of care. This extends to every aspect of our service. Wherever possible we will provide a replacement car while yours is being maintained and we aim to ensure that any time you spend with us in the Lexus Lounge is relaxing and enjoyable. Read a paper, watch television or even work on your laptop. Excellence of service is more than just a goal, it's our passion. And, through the LexusCare® programme, that passion endures long after your car has left the showroom.

LEXUS FINANCIAL SERVICES

Lexus Financial Services offers an extensive range of finance products, including Lexus Connect - Contract Purchase and Lexus Connect - Contract Hire, products that offer a combination of benefits designed to make acquiring a Lexus as easy as driving one. Whether you are a private motorist looking for the most flexible, affordable options or a business wishing to boost cash flow and tax efficiency, our finance products provide attractive, refined solutions. Your Lexus Centre will be happy to discuss the full range of financing options available and create a quotation that is right for you. When you choose to go ahead your Lexus Centre will arrange your application. There are no lengthy forms to fill in and immediate acceptance is possible in many cases. Delivering complete customer satisfaction underpins everything we do at Lexus, so once you commence an agreement with us, you can rest assured that our team of UK-based customer service representatives are only a phone call away if you have any queries. Finance subject to status to over-18s. Terms and conditions apply. Indemnities may be required.

WORLD-LEADING QUALITY

Since its launch, Lexus has been in the vanguard of what is achievable in the luxury automobile category. Our long list of awards and quality records is proof of this achievement: in addition to awards for best luxury car, best chauffeur car, best security and being rated best manufacturer, over the past decade Lexus has continued to lead the way in customer satisfaction and has been awarded the highest position in several UK vehicle ownership satisfaction studies.

INFORMATION CONTAINED IN THIS BROCHURE

Accuracy and Specification

All information contained in this brochure was correct at time of going to print. Please note that while every effort is made to reproduce accurate information, we reserve the right to change specifications, equipment and availability without prior notice. Images shown in this brochure may not be of UK models (for example, they may show left hand drive vehicles) and may illustrate equipment that is only available on selected grades. Therefore, this brochure cannot be regarded as infallible and, as such, does not constitute an offer for sale of any particular vehicle shown.

Fuel consumption & emissions data

All mpg, mph and CO₂ figures quoted in this brochure are sourced from official EU-regulated test results. These are provided for comparability purposes only and may not reflect your actual driving experience. Fuel consumption and emissions vary considerably depending upon driving style, conditions, vehicle load and speed. In order to allow consumers to compare and make an informed choice between one vehicle and another, there is a European Commission standard (93/116/EC and 692/2008) to measure fuel consumption. This common standard must be adhered to by all manufacturers selling motor vehicles in the EU and is the basis for all published fuel consumption figures. For information on how fuel consumption tests are performed please visit: <http://www.dft.gov.uk/vca/tcb/faqs-fuel-consumptio.asp>. Please note that any references to “zero emissions” contained in this brochure refer to the vehicle running in Electric Mode only. This is measurable at the point of driving only and is reliant upon speed, distance covered and driving conditions.

Safe driving

Lexus is committed to promoting safe and responsible driving at all times. None of the images contained in this brochure should be taken to promote any unsafe driving practice. All sound, entertainment and navigation accessories that may be included in our vehicles should always be used alongside legal and attentive driving. Additionally, any driver

assistance and other safety features included in our vehicles are not designed to substitute safe and careful driving.

End-of-life vehicles

Taking care of the environment is a priority for Lexus. We strive to minimise the environmental impact of our vehicles throughout their life cycle – from design, production, distribution, sales and service to end-of-life. For more detailed information on environmental performance please visit www.lexus.co.uk.

Arranging a test drive

We hope to have illustrated in this brochure that Lexus creates vehicles of refinement, innovation and style. But only behind the wheel of one of our models can you truly experience the pleasure, performance and seamless anticipation of your needs as a driver at first hand. Simply consult your local Lexus Centre to arrange a test drive.

Further information & contact us

For further information, to find out more about owning a Lexus or simply to locate your local Lexus Centre, please visit our website, www.lexus.co.uk, or call 0845 278 8888.
