

**VOLVO XC90**

# INNOVATION FOR PEOPLE

*Made by Sweden.*

At Volvo Cars, we continuously innovate in order to make your life better. Every car, every technology and every design is the result of a clear vision – to put people at the heart of everything we do. It's a vision that has driven us from the start, one informed by Sweden, a country which values people as individuals and where conventions are challenged. It's a culture with a rich design heritage and a unique way of looking at the world.

This vision has inspired us to create the likes of the three-point safety belt and side-impact airbags – inventions that have saved lives and changed automotive history. And with our new generation of models we continue with this tradition.

Scandinavian design combines with modern Swedish luxury to enrich your experience. Intuitive technology makes life less complicated and keeps you connected with the world, while the latest Drive-E powertrains balance responsive power with class-leading efficiency. And our IntelliSafe innovations support you while you are driving, helping to prevent accidents and protecting you if one occurs. They make every journey safer, more comfortable and enjoyable.

We understand what's important to people. It forms the basis of all the innovations which we create. Innovations that improve lives.

At Volvo Cars we design our cars around you.

TRIM LEVELS | 40

The Volvo XC90 is a haven, a place where you can relax, think and travel in first-class comfort. Where contemporary Scandinavian design meets Swedish craftsmanship. Where quality materials will delight your senses and put comfort at the heart of every journey. And where an intuitive centre display with touch screen helps keep you connected and in control.

Whether driving along the motorway or negotiating urban traffic, our intuitive technology makes the journey easier, leaving you to enjoy the ride. The unique Volvo driving experience is further enhanced with sophisticated powertrains that give you performance and efficiency, so you never have to compromise.

And with the very latest in safety innovations, you will travel in the knowledge that your XC90 will always look out for you, your passengers and the world around you.

The XC90 represents our distinctive take on what it means to drive a luxury car in the 21st-century. The XC90 is a sanctuary. Designed Around You.

*“As with any luxury item – a finely crafted watch, a bespoke suit – its beauty might be obvious, but its true value is only revealed when you discover the expertise, the craftsmanship and the passion that went into making it.”*

## ROAD PRESENCE

*Be impressed, quite simply.*

You know you're looking at truly great design when what appears simple at first glance turns out to be ingenious and stimulating once you discover the thoughts and details that make up the whole. And as with any luxury item – a finely crafted watch, a bespoke suit – its beauty might be obvious, but its true value is only revealed when you discover the expertise, the craftsmanship and the passion that went into making it.

The Volvo XC90 has this quality. Appropriately for a full-sized SUV, it exudes power, particularly with the upright grille and the strong shoulders, both of which

are classic Volvo style cues. As exterior designer Anders Gunnarsson says, “The car has an attitude that expresses confidence and self-belief. If you're proud and relaxed about your position in the world, you'll stand upright – just like the Volvo XC90.”

But despite this sense of presence, the design is also exquisitely subtle: “It grows on you,” says Thomas Ingenlath, Volvo Car's Senior Vice President of Design. “It's not all spectacle – it's about leaving the proportions and the technology underneath to create the drama. You suddenly realise how much sheet metal movement there is in

the side section – how it grows over the rear wheel. It's about perfect execution, and that took such a long time to achieve.”

“The task to design the rear was more difficult”, says Ingenlath. “We didn't want to use the elements that everyone else is using to make a car look more powerful. Most other car manufacturers are using horizontal lines. We used vertical lines. That is something that can be difficult. If you are good at it, you give a car an incredible status. We achieved that kind of status by reduction – not going into the horizontal but staying proud and upright. That is a nice aspect.”

V O L V O

XC 90

XC 90

T6

**Light is precious to us in Sweden.**

That's why we've designed a large optional panoramic glass roof, which is the perfect complement to the XC90's airy, uncluttered cabin.

**Don't you love it when a doorman gets the door for you?**

With the power-operated tailgate, you can enjoy this courtesy every day: just press a button on your remote, the tailgate or inside the cabin. When you have your hands full, the comfort opening function makes all the difference: wave your foot under a sensor in the bumper, and the tailgate opens and closes automatically.

## INSIDE YOUR CAR

*Your own space, wherever you go.*

Travelling in the XC90 always feels special – from the moment you pick up your sculptured remote key. In the lavishly appointed cabin, luxurious materials and superb craftsmanship meet with uncluttered elegance. The airy interior gives you the luxury of space and calm – no matter which of the three seat rows you sit in. The mood of tranquil seclusion is accentuated by

eye-catching details like the “flying wings” controls, inspired by high-end amplifiers. Other touches include the diamond-knurled control surfaces and the beautifully framed tablet-sized centre display with touch screen, which takes pride of place in the centre stack. Our CleanZone technologies filter out harmful gases and particles, ensuring that you and your passengers breathe easy

– even in polluted cities. And you’ll love our 19-speaker Premium Sound by Bowers & Wilkins, which offers sublime concert-quality sound for the most exacting audiophiles.

*“The sculptured seats offer 21st-century luxury in look, feel and style while allowing more rear legroom. And you can rest assured that they’ve been designed in line with the latest ergonomic research.”*

## Travel first class in the Volvo XC90.

When we designed the Volvo XC90, we made sure you travel in first class. The sculptured seats offer 21st-century luxury in look, feel and style while allowing more rear legroom. And you can sit easy in the knowledge that they’ve been designed in line with the latest ergonomic research. If you’d like to enhance their lavish comfort even further, you can have heating, massage and ventilation, power-operated lumbar support, extendable seat cushions and side bolsters: you’ll never want to get out of your car. In the second row, the three individual seats are designed for maximum comfort – each of these three seats slide

and recline individually. The two individual third-row seats offer excellent comfort for passengers up to 170 cm/5'6" (but can accommodate those who are taller) and are easy to get in and out of. Thanks to the four-zone climate system, passengers in the second row seats can set the temperature and fan speed to their individual taste – and the same goes for the driver and the front passenger. And to make sure your phone or tablet never runs out of charge, there’s access to a power outlet in each row.

For better visibility, there’s “theatre seating” – the rear rows are positioned higher up than the seats in front. In true

Volvo style, we’ve also remembered younger passengers – children who’ve outgrown their child seats can use the integrated booster cushion in the second row. And providing superior versatility, each seat in the second and third row can be folded flat onto the floor to allow 32 possible seating combinations.

This is the first of a completely new generation of nimble Volvo steering wheels, combining a graceful rounded square in the centre with a contemporary interpretation of our classic three-spoke design.

Jewel-like touches such as controls with diamond-knurled finish and translucent edges underline our designers’ meticulous attention to detail.

The four-zone climate system can be controlled from the centre display touch screen, or a graceful touch control panel at the end of the tunnel console.

*“When we designed this stunning interface, it was our overriding ambition to eliminate as many physical switches and buttons as humanly possible.”*

## SENSUS

### *The intuitive way to interact with your car.*

We aimed for the Volvo XC90 to be as natural, intuitive and human to interact with as possible. Volvo Sensus is our unique way of enabling you to communicate instinctively with your car and to connect to the digital world.

As an impressively advanced car, the XC90 has a wealth of features and functions which would have been unthinkable just a short time ago. That's why it's all the more important that you should be able to access whichever support, information or entertainment function you need almost instinctively. We think you'll find that Sensus lives up to this task. And because we love good design, it's also beautiful to look at and enjoyable to use.

When we thought about how drivers would interact with the XC90, we aimed to eliminate as many physical switches and buttons as humanly possible. We achieved this by moving these controls – for climate, entertainment and anything else that makes life easy – into our 9-inch centre display with touch screen – a Volvo first. Not only that, we've also given the Volvo XC90 voice control for the functions you'll use most frequently: simply select the menu you want and talk to your XC90 in a natural, human way. Thanks to all this, our designers were able to create a clean, uncluttered Swedish interior with just a few jewel-like physical controls.

Communication is a two-way street. So we didn't just simplify the way you can interact with your XC90. We've also streamlined the way the XC90 communicates with you. Any information you need to see straight away and call for your immediate action – for example your current speed, actual speed limits and navigation directions – shows in the optional head-up display (that projects the information in your field of vision) and in the driver display. Less urgent information, such as climate and entertainment, has its place on the centre display with touch screen.

# Connect with all your senses.

Nothing rounds off a drive in your car better than luxuriating in the rich sound of your favourite piece of music. And our finest sound system – Premium Sound by Bowers & Wilkins\* – turns any drive into a momentous experience. Apart from this very high-end package, there's also our High Performance sound system, which delivers a sound at a quality that's very rare in its class.

Thanks to Sensus Connect, you can stream your favourite tunes from your device to your car via Bluetooth®. You can also use Bluetooth® or Wi-Fi tethering to connect your XC90 to the internet via your device. You can then browse the web and access a variety of internet radio and media apps. Sensus Connect also enhances your

connectivity with the large 9-inch centre display with touch screen and voice control.

With Sensus Navigation as standard, you can view your route on the 9-inch centre display with touch screen. And with Apple CarPlay you can use the centre display to access your iPhone® (version 5 or later). Volvo On Call is also standard. It includes a built-in modem and dedicated SIM-card slot which enable you to connect to the internet via the roof aerial. The result is a strong, stable connection which you can share with smartphones or tablets by creating a Wi-Fi hotspot. And if you'd like to connect devices physically, AUX- and USB-ports are provided as well.

**Premium Sound by Bowers & Wilkins\* embodies our quest for perfection.** The numbers are impressive: one 12-channel amplifier, 1400W output, 19 speakers (including two automotive innovations: a new type of sub-woofer, which is both very powerful and space-saving, and a tweeter facing the cabin for outstanding sound quality). But our pursuit of the definitive sound system went beyond mere technical facts. Our sound systems engineers searched

obsessively for audiophile perfection – at Gothenburg's Konserthus they knew they'd found it. Using a radically new approach called acoustic holography, the team took the Konserthus's unique fingerprint – its very own sound profile – and reproduced it in the car. The result, our Concert mode, speaks directly to any music lover's soul – regardless of which of the seats you travel in. Our two other audio modes, Studio and Stage, allow you to create exactly the sound you want.

SENSUS

**A beautifully-designed display.** Our gorgeous, portrait-format 9-inch centre display with touch screen is an eye-catching feature in the interior, epitomising our Swedish design philosophy of marrying form with function. You'll notice that it's very glossy and black, and yet we've kept glare to an absolute minimum. The display is beautifully complemented by our "flying wings" controls, which evoke the purposeful reduction and simplicity of high-end amplifiers. Press "play" and you'll find that the sound system lives up to the association every time.

FIND OUT MORE AT [VOLVOCARS.CO.UK](http://VOLVOCARS.CO.UK)

*SENSUS*

## The beauty of information.

True to our Swedish design heritage, we've created an interface that's as functional as it is beautiful. The head-up display presents information as if it's hovering two metres in front of the car, so you never need to look away from the road. And because the projections are semi-transparent, they don't obscure your vision: you'll find this particularly useful with Sensus Navigation, which uses the head-up display for its navigation arrows. When the ignition is turned off, the display has a glossy black, hi-tech look.

Our tablet-sized centre display with touch screen is vertical, which is innovative and practical. We've placed large touch buttons at the bottom of the screen, where they're easy to reach, and information for viewing at the top. You'll also find that this format makes following routes on maps easier, as more of them can be displayed – and you don't need to scroll up and down all the time. Being Swedish, we've also made sure that this glossy, anti-glare screen responds to the lightest touch, even when you're wearing gloves – so bring on the snow!

**Talk to me.** The easiest way to interact with your car is by talking to it. That's why we've linked the most commonly used functions to voice control. But don't worry – you don't have to learn a list of robotic commands. We've collected a vast bank of phrases people use in real-life situations and trained voice control to understand them – in more languages than ever, which means you can now speak to your car in a way that comes naturally to you.

**The short way home.** Sensus Navigation makes use of the centre display with touch screen by showing your route in the largest possible format. The system is constantly updated on current traffic flows and helps you find the quickest way to destinations – green routes for no disruptions, yellow for slow moving traffic and red for congestion. And with the optional head-up display, you'll be guided by navigation arrows hovering in front of you. As the system is connected, you have access to apps like Local Search, Weather and Send to Car. Best of all, Sensus Navigation has voice control, so all you have to do is say where you want to go.

**A special connection.** Volvo On Call allows you to connect with your car as never before, while also connecting your car to the outside world.

At its heart is a smartphone app you can use to check on – and interact with – your car no matter where you are. This is very handy if, for example, you want to pre-heat your car in time for your arrival. And to go online, the package includes a built-in modem and dedicated SIM-card slot. Volvo On Call also provides help when you need it most. The On Call button in the cabin puts you through to breakdown services. And in emergencies, the cabin's SOS button provides an instant link to a team of Volvo On Call professional operators. To cover any eventuality, if there are indications that you've had an accident (such as a deployed airbag), we will call you. If there's no response, we'll send the emergency services to you straight away.

*SENSUS*

**Light up the dark.** Driving in the dark just became a lot more enjoyable and safe. Our signature design LED headlights combine an impactful look with safety and convenience. They have an especially wide and long light pattern, and featuring our Active High Beam technology you can stay on high beam all the time. You don't have to flick between low and high beam, and when you meet or catch up another vehicle our optional Full-LED Active High Beam illumination shades out only as much of your beam as necessary to avoid dazzling – while you still get the benefit of a brightly lit road.

*"These innovative technologies are always there for your everyday convenience and control, day and night."*

## INTELLISAFE

*Intuitive safety by Volvo Cars.  
For you, and for those around you.*

IntelliSafe is our name for the intuitive, intelligent technologies that support your driving, help prevent accidents and help protect you in a collision. These helpers are always there for your everyday convenience and control, day or night. These innovative technologies also play a key role in helping us realise our bold vision that, by 2020, no one will be killed or seriously injured in a new Volvo car.

City Safety is at the heart of IntelliSafe. Fitted as standard in your XC90, it's like a co-pilot that's always looking out for you,

detecting danger ahead and warning you and intervening if necessary. Day and night, City Safety can identify other vehicles, pedestrians, cyclists and large animals (horses and deer) in your path. It warns you of any hazards and will brake automatically, if necessary, to help avoid or mitigate a collision. Likewise, it will brake automatically if you're at a junction and should turn into the path of an oncoming car.

The standard IntelliSafe technologies also include preventive safety features such as Electronic Stability Control, Road Sign

Information, Lane Keeping Aid and our new Run-off road Mitigation. And it goes without saying that you also get Volvo's legendary strength.

The new semi-autonomous driving technology Pilot Assist automatically maintains a set speed or distance at the car in front of you, as well as giving gentle steering inputs to help keep the car centred in its lane.

With our new semi-autonomous driving technology Pilot Assist, your Volvo helps make every journey easier and more relaxing. It actively supports you by automatically adjusting the steering to keep the car centred in the lane while keeping your set speed and distance to the vehicle in front of you. The Pilot Assist steering support is active from standstill up to motorway speeds.

City Safety can alert you if you're about to collide with the vehicle in front and applies the brakes if necessary. The system is active at all speeds and can help avoid collisions at speed differences up to 31mph in relation to the vehicle in front of you. At higher speed differences, City Safety can help mitigate a collision. City Safety also brakes if you should turn into the path of an oncoming car at a junction, again helping you to avoid or mitigate a collision.

City Safety also watches out for pedestrians and cyclists, even at night. This is particularly important as pedestrians and cyclists are much harder to see than cars in low light. If there's a pedestrian or bike in your path, City Safety brakes to avoid or mitigate a collision. As a world-first, City Safety also detects large animals such as horses and deer.

A part of IntelliSafe, our BLIS™ system uses radar sensor technology to alert you to vehicles in your blind spot on both sides of your car and to vehicles approaching fast from behind. Cross Traffic Alert watches out for crossing traffic when you're reversing out of tight parking spaces. Alerting you for approaching vehicles as well as for pedestrians and cyclists, this technology is especially helpful in tight and crowded areas where the side view might be limited.

T6 AWD | Inscription | 707 Crystal White pearl | Exterior Styling Accessories Urban | 21" 10-Spoke Turbine, Polished

*INTELLISAFE*

**Smart technology facilitates tight car parks and makes it easier to manoeuvre in narrow city streets – with the optional 360° camera, you get a bird's-eye, uninterrupted view of the car's surroundings on the centre display.**

Would you like your car to park for you? Then let Park Assist Pilot do the work, and manoeuvre you into a vacant space. Not only can this technology parallel park – now it can also handle perpendicular parking. Once it detects a suitable gap, it takes over the steering and guides your XC90 into place – all you need to control is the brake and the accelerator. The technology is so precise it can park in spaces you wouldn't even normally consider: when parallel parking, for example, a space just 1.2 times the length of the car is enough.

INTELLISAFE

# Your safety is our mission.

As proactive as the safety technology is, a vital step when creating an extremely safe car is designing protective strength around the passenger compartment. At Volvo Cars, we pioneered the use of ultra-high strength steel in our safety cages. In the XC90, we have made extensive use of this extremely tough material. But an intelligent structure needs to dissipate energy as well as resist it. That's why we've engineered the XC90 to include strategically-placed softer segments

in different steel qualities, which act as front and rear crumple zones.

One of the pioneering innovations in the first-generation XC90 was our roll-over protection system. For the XC90, we applied the same philosophy in a brand-new design.

In typical Volvo way, we also want to protect other motorists. That's why we've developed our lower crash structure – it means the XC90 is compatible with smaller

cars' crumple zones. And it means you can drive your XC90 with a clear conscience.

We designed the safety technologies of your XC90 to help protect people of different size and age. For example, a child over 3–4 years of age (15–36 kg) will ride in comfort and safely positioned in our integrated booster cushion on the second row's centre position.

Rear Collision Warning with braking at stand still, which is a part of IntelliSafe, detects if you're about to be hit from behind and warns the driver behind by flashing your hazard lights at a high rate. If a collision can't be avoided, the front safety belts are tightened to keep you in position. And just before impact, the brakes are applied to help protect you and your passengers from whiplash injuries.

Our Run-off road Mitigation technology is a safety world-first. When the system senses an imminent run-off road scenario, it helps you to remain on the road by helping to steer and slow down the speed if needed. If, however, a run-off road accident can't be avoided, the system tightens the front safety belts electrically to help keep you at a safe position during an impact. And if the car lands heavily on impact, the specially designed front seat structure helps protect your spine. It acts as a shock absorber to help reduce the energy created by a powerful vertical impact.

INTELLISAFE

*“The key to this is our new, lightweight, low-friction, turbo-charged 2.0l four-cylinder engine, which is coupled with our newly designed automatic eight-speed transmission.”*

## DRIVE-E

*Enjoying more.  
Using less.*

Drive-E is our all-embracing approach to efficient power and an uncompromising driving experience. Our new-generation Drive-E powertrains play a central role in this: in fact, they redefine how luxury cars will be powered in the 21st-century. Yes, they deliver the performance and driving enjoyment you'd expect from a luxury SUV. But thanks to our unrelenting commitment to efficiency, they reduce the impact on the environment as well. All this means you get power and superb driveability together with low fuel consumption and CO<sub>2</sub> emissions.

The key to this is our new, lightweight, low-friction, turbo-charged 2.0l four-cylinder engine, which is coupled with our newly-designed automatic eight-speed transmission. And to maximise the efficiency of our Drive-E powertrains,

there's an Eco Mode, which calibrates the gearbox and engine control systems for the lowest possible fuel consumption. Eco Mode also softens the throttle response to further boost efficiency. And because the air-conditioning impacts on fuel use, it is partly disengaged in Eco Mode, although it can be fully switched on manually.

Then there's the Eco-Coast function, which uses the car's kinetic energy to save fuel. When the driver stops pressing the accelerator at speeds above 40mph, there is no engine braking; the car just coasts along with the engine at idle. And finally, the Stop/Start system also plays its part in lowering fuel consumption.

Our Drive-E diesel powertrains benefit from additional, diesel-specific technology. With twin turbos and the revolutionary

i-ART direct fuel injection, these intelligent engines provide responsive, clean and efficient performance – each cylinder has its own microchip and pressure sensor for the perfect dosage of fuel. The 235hp D5 also features PowerPulse, a Volvo world first. It activates the turbocharger as soon as you press the accelerator to give an instant boost of acceleration from standstill and at lower speeds. It's technology such as this that enables us to offer the power of a much larger engine from a compact four-cylinder, so you can get the perfect mix of power and efficiency.

*“Our very powerful T8 Twin Engine delivers astonishing performance without compromising on fuel efficiency and low emissions.”*

## Double power.

Nothing encapsulates our fresh thinking on 21st-century luxury and performance better than our top-of-the-range T8 Twin Engine. Combining a super- and turbo-charged 2.0l Drive-E petrol powertrain with an electric motor, the T8 Twin Engine puts out an astonishing amount of horsepower, which it delivers with a jaw-dropping amount of torque. But it can also be driven with a fuel consumption and emission levels that would put a compact car to shame. Not only does this petrol plug-in hybrid offer scintillating performance and amazing fuel efficiency – because the compact, high-capacity battery is mounted centrally along the transmission tunnel, the XC90 T8 Twin Engine also handles supremely well.

It's versatile, too – the T8 Twin Engine features different driving modes to suit virtually any driving environment. Pure mode is all about reducing fuel consumption and emissions. Working at speeds of up to 78mph, it uses electric power as much as possible, sending it to the rear wheels. This mode packs ample reserves: a full battery suffices for most people's daily commute. But because the high-performance petrol engine can be called upon at any time, there's never any worry about range.

Hybrid is the default mode. Geared to maximum comfort, this uses the electric motor at the rear wheels as well as the petrol engine, which drives the front wheels. It does this either individually or in parallel

to achieve an optimum balance between performance and efficiency.

The Power mode, on the other hand, unleashes the combined forces of petrol and electric at the same time to all four wheels, while steering, transmission and brakes are tuned for sportiness. The AWD (all-wheel drive) mode improves traction and in addition, the Off Road mode engages an electronically controlled limited slip differential function and can help you negotiate poor roads at speeds below 25mph. So your XC90 can be a silent-running zero-emission city car, a blistering performance SUV, a supremely versatile seven-seater or a reassuring companion in challenging conditions.

Fully charged, the XC90 T8 Twin Engine gives you up to 27 miles of pure electric driving with zero emissions in whispering-quiet comfort, covering most everyday driving scenarios.

As a symbol of the pure electric mode of your XC90 T8 Twin Engine, the gear shifter is made of pure Swedish crystal by Orrefors®.

Throughout its life, our XC90 will consume less fuel than comparable rivals with larger displacement engines, which results in large fuel savings and lower CO<sub>2</sub> emissions.

*DRIVE-E*

Our plug-in hybrid technology means you get an uncompromising driving experience with excellent fuel economy and low CO<sub>2</sub> emissions all at the same time. That's why this solution is as important today as it is in our future.

Our XC90 T8 Twin Engine plug-in hybrid is the latest milestone on this journey. In addition to a super- and turbo-charged high performance petrol engine, it has a potent electric motor which delivers instant and impressive torque to the rear wheels. This motor is powered by high-capacity batteries mounted centrally along the transmission tunnel. It's an intelligent positioning which gives you excellent weight distribution and, as a consequence, outstanding handling.

The T8 Twin Engine can handle most people's daily commutes in pure electric mode – but because the high-performance petrol engine can be called upon at any time, there's never any worry about range.

READ MORE AT [VOLVOCARS.CO.UK](http://VOLVOCARS.CO.UK)

T8 Twin Engine | Inscription | 707 Crystal White pearl | 21" 8-Spoke, Silver/Diamond Cut, 174

DRIVE-E

# Firm control with a velvet touch.

The XC90 also incorporates our very latest electronic support systems that constantly adjust to changing road conditions and driving styles. For example, our hill start assist function makes it easier to start off on a steep hill. And for difficult roads and poor weather conditions, all-wheel drive and hill descent control ensure you embark on your journey with confidence.

The XC90 is available with air suspension on all four wheels, which includes a very advanced, electronically-controlled damper system. Not only does this give you outstanding ride comfort – you also have the option to choose between different drive modes, which cater to individual driving styles and increase the car's versatility in all road and weather conditions.

In comfort mode, the air suspension is tuned for maximum comfort while eco mode optimises settings for low fuel consumption and CO<sub>2</sub> emissions. Dynamic or Power mode lowers the car by 20 millimetres at higher speeds to optimise aerodynamics and handling, while the Off-Road mode increases ground clearance by 40 millimetres at low speeds. The modes are simple to change using an elegant and ergonomic roller control between the front seats.

With the air suspension system, you can also lower the rear of the car by 50 millimetres by pushing a button inside the load area. This makes it easier to lift heavy items into (or out of) your car, or to attach a trailer to its tow hook.

Choose the off road mode and the air suspension will raise the car by 40 millimetres. Hill Descent Control is activated at the same time: the car brakes for you on steep gradients – all you need to do is steer. The off road mode gets your XC90 to navigate challenging terrains – all you need to do is turn the elegant drive mode selector to the desired position.

22" 5-Double Spoke, Matt Black/Diamond Cut, 175

Our efficient, smooth and responsive Drive-E powertrains prove that you don't need a big engine to get big performance – our entirely new 2.0l four-cylinder design is capable of generating very high power outputs. And all have been engineered with low fuel consumption and emissions in mind.

Our 320hp high-performance petrol engine uses both supercharging and

turbocharging to deliver great performance. And our top-of-the-range T8 Twin Engine with plug-in hybrid technology develops an exhilarating 407hp.

Or choose our high-performance 235hp twin-turbocharged diesel engine. It uses advanced i-ART technology for responsive, fuel-efficient performance. And choosing the 235hp D5, you can enjoy the same

excitement of instant power delivery as of a considerably larger engine. Already from standstill and at low speeds, our new PowerPulse technology – a Volvo world first – instantly activates the turbo charger the moment you press the accelerator. There's no delay, just the right burst of extra power exactly when you need it.

# FREEDOM OF CHOICE, YOUR CHOICE

In a Volvo, you can enjoy the finer aspects of freedom. Such as the freedom to explore new roads, the freedom to enjoy the experience and – not least – the freedom to create a car that matches your style and personality. Choosing a Volvo is more than a statement of your personality. It's about knowing what's most important in life and going in that direction. To show a greater care for people and the world we share,

and never compromise with design and quality. To choose a car that's more human, more intuitive and more efficient – simply much of what empowers you to live a rich, authentic life.

To ensure you get your Volvo XC90 exactly as you want it, we have created a wide range of options, trim levels and personal expressions. Even if your XC90 is generously equipped already in the

standard Momentum trim level, you may want to enhance the experience even further. If you're in for a more sporty style inside and out – why not take a look at R-Design? Maybe you want to indulge your senses in the finest Scandinavian luxury? Then you'll feel at home with Inscription. Whatever you prefer, you can rest assured there's a Volvo XC90 for you. Read on, and see what your XC90 will look like.

Volvo XC90 Momentum

Volvo XC90 R-Design

Volvo XC90 Inscription

# THE RIGHT EQUIPMENT FOR YOUR DRIVE

Choosing a Volvo XC90 is the easy part. And now all you need to do is select the equipment level that's right for you. Already our standard equipment level Momentum will provide you with a high level of technology that will meet high demands on style, comfort and safety. For example, you can enjoy Sensus Connect with enhanced connectivity – such as the intuitive operation of the 9-inch centre display with touch screen and voice control – and the clear sound reproduction of our High Performance audio system. Our CleanZone technology ensures you and your passengers can enjoy fresh cabin air even when driving in the city.

And of course: you get our world-leading IntelliSafe technologies including the award-winning City Safety collision avoidance technology, Lane Keeping Aid, Adaptive Cruise Control and our new semi-autonomous driving technology Pilot Assist as standard.

Also included as part of our standard Momentum trim level are our signature headlights with LED illumination together with bright deco exterior design elements and 19-inch wheels which will add to the exclusiveness and road presence of your XC90. On the inside, aluminium tread plates welcome you every time you enter the cabin

of your SUV. An exclusive leather upholstery and brushed aluminium decor inlays further complement the interior ambience. A power adjustable 4-way lumbar support for the front seats including vertical adjustment makes it easy to optimise the support to your needs. And when it's dark, the upgraded interior illumination enhances the luxurious feeling inside your XC90. With Momentum, you also have the benefit of a power operated tailgate with a comfort opening function – just move your foot beneath the rear bumper and the tailgate opens at your convenience.

## XC90 MOMENTUM

Includes:

### Exterior:

19" Alloy wheels | Aluminium roof rails | Bright deco exterior, front | LED illumination | Dual visible tailpipes in chrome | Front grille high gloss black with chrome frame | Fully colour adapted sills and bumpers | Park assist, rear | Power operated tailgate | Retractable rear-view mirrors

### Interior:

4-way power adjustable lumbar support, front seats | Cargo opening scuff plate in stainless steel | Comfort seats with leather upholstery | Crossed Brushed Aluminium decor inlays | Interior mid level illumination | Metal tread plates, front and rear | Uni deco inlay in steering wheel

---

**1.** XC90 Momentum with LED illumination and 19-inch wheels. **2.** Cargo opening scuff plates in stainless steel for stylish and convenient loading (Momentum). **3.** Park Assist supports you when reversing and the chrome dual tailpipes give your XC90 a more dynamic look (Momentum). **4.** Sensus Connect includes the standard 8-inch driver display, the 9-inch centre display with touch screen, voice control, USB/AUX inputs, Sensus Navigation and our High Performance audio system with 10 excellent speakers and Bluetooth® audio streaming. **5.** Signature LED illumination, the high gloss black grille and bright deco exterior details contribute to a both powerful and elegant appearance (Momentum). **6.** The raised aluminium roof rails and our optional sunroof (Momentum).

Providing a wide range of exterior colours and wheels, the Volvo XC90 allows you to create an SUV that's really you. Going for Momentum, you can choose between standard 19-inch or upgraded 20-inch wheels. The exterior colour you choose has a dramatic impact on the personality of your XC90. Available in ten different variations, each colour imbues your SUV with a sense of luxury and presence.

## INSPIRED BY THE ART OF DRIVING

If you love to drive, the XC90 R-Design is for you. With a unique personality, R-Design captures the thrill of a spirited driving experience characterised by style, response and control. A wealth of distinguished design details raise the dynamic soul of your Volvo SUV and give it a more sporty, distinct road

presence. It's an expression that catches the eye from every angle and hints the promise of an amazing drive, every time. And you can rest assured the XC90 R-Design will deliver. Surrounded by meticulously crafted and expressive interior design details, you can feel it from the moment you take your

position in the sculpted R-Design driver seat. Everything – from the R-Design steering wheel with gearshift paddles to the Charcoal headliner – is there to inspire and support your drive.

### XC90 R-DESIGN

Includes Momentum equipment level plus the following:

**Exterior:**

20" Alloy wheels | Bright integrated roof rails | Headlight high pressure cleaning | Mirror caps in silver | R-Design dual integrated tailpipes | R-Design front grille | R-Design front spoiler | Silk metal window trim

**Interior:**

12" driver display | Charcoal headlining | Gearshift paddles on steering wheel | Interior high level illumination | Metal Mesh decor inlays | Power cushion extension, driver and passenger seat | Power driver seat with memory function for seat and side mirrors | Power seat, passenger with memory function | R-Design illuminated tread plates, front and rear | R-Design leather gearshift lever | R-Design leather key remote | R-Design mats, front and rear | R-Design pedals | R-Design perforated leather steering wheel | R-Design Contour seats with Nubuck textile/Fine Nappa Leather upholstery

R-Design is Volvo in smart designer sports gear – it's all about a performance-inspired look and feel, both inside and out. It's a truly eye-catching expression with sporty exterior design cues, such as its own distinctive grille in high gloss black with Silk Metal frame, front spoiler, stylish Silk Metal window trim, Bright Silver matt finish door mirror caps, prominent dual tailpipes and striking 20-inch alloy wheels. Our signature headlights with LED illumination provide excellent vision and a distinctive attitude on the road. And for an even better uninterrupted vision in the dark, there's the Full-LED Active High Beam illumination as standard on R-Design.

On the inside, the illuminated R-Design tread plates in Silk Metal finish greet you onboard. The refined sporty theme continues with Metal Mesh decor inlays, Charcoal headlining and fully power operated R-Design Contour seats with a unique Nubuck Textile/Fine Nappa Leather upholstery. Together, these features give the cabin a technical, cockpit-like feel. R-Design logotypes and distinctive stitching in the seats, the gear shifter and the steering wheel in perforated leather all reinforce the sporty yet elegant ambience. The power-operated front seat cushions further enhances your thigh support for improved

comfort during long drives. And when it's dark, our most advanced interior illumination enhances the exclusive ambience inside your XC90 R-Design. Further adding to your sense of being in control, the R-Design also provides you with our largest 12-inch driver display and gearshift paddles. Conveniently positioned in the tunnel console between the front seats, there's also a drive mode control that allow you to shift between four driving characteristics – Comfort mode, Dynamic mode, ECO mode and Individual mode.

The XC90 R-Design is available with all powertrains including our plug-in hybrid T8 Twin Engine.

---

**1.** R-Design door mirror caps in contrasting silver look. **2.** The XC90 R-Design in exclusive Bursting Blue metallic with 20-inch Matt Black/Diamond Cut wheels. **3.** The R-Design interior featuring Contour seats with exclusive Nubuck Textile/Fine Nappa Leather upholstery, R-Design textile mats, R-Design steering wheel with gearshift paddles, 12-inch driver display with four graphic modes and Carbon Fibre decor inlays (optional). **4.** R-Design is available for all powertrains. **5.** Dual integrated tailpipes for a distinctive road presence. **6.** The signature LED illumination together with the R-Design front grille and spoiler add to the dynamic character. **7.** The 22-inch Matt Black/Diamond Cut alloy wheels for the ultimate R-Design experience (optional).

The exterior leaves no doubts of the intention with your XC90 R-Design. The exterior colours are carefully selected to match the car's dynamic character – each with its unique expression. For example, the R-Design exclusive Bursting Blue metallic adds a techy, sporty look that perfectly highlights the body inserts in high-gloss black and silk metal finish. The five-spoke R-Design 20-inch or 22-inch wheels in Matt Black/Diamond Cut give your XC90 R-Design a superior road presence that put your SUV in a class of its own.

RDESIGN

Inside your XC90 R-Design, you can enjoy a dynamic and driver-focused interior made of high-class materials. The sculpted power operated R-Design Contour seats will provide relaxed support through any twist the road has in store, while the exclusive Nubuck Textile/Fine Nappa Leather or Fine Nappa Leather upholstery with contrasting stitching provide a sporty yet sophisticated feel. A sensation further enhanced by the decor inlays in Metal Mesh or Carbon Fibre that perfectly complement the Charcoal interior.

## A HIGHER GRADE OF LUXURY

We created the exclusive XC90 Inscription to meet your highest expectations on Scandinavian luxury. It's a highly personal expression that evokes a strong sense of elegant refinement. Each detail is carefully selected to give you and your passengers

a sophisticated and invigorating experience. Distinguished exterior design cues enhance the luxurious look and feel of the XC90, while the meticulously crafted interior gives you ample room for a relaxed driving experience. The XC90 Inscription epitomises our proud

heritage of human-centric design. And when it comes to intelligent luxury imbued with distinctive style and fresh thinking, the XC90 Inscription is in a class of its own.

### XC90 INSCRIPTION

Includes Momentum equipment level plus the following:

**Exterior:**

20" Alloy wheels | Bright deco exterior, rear | Bright deco moulding with embossed Inscription logotype, side | Bright integrated roof rails | Dual integrated tailpipes | Headlight high pressure cleaning

**Interior:**

12" driver display | Comfort seats with Fine Nappa Leather upholstery | Inscription mats, front and rear | Illuminated metal tread plates | Interior high level illumination | Leather key remote | Linear Walnut decor inlays | Power seat, passenger with memory function

# Inscription

The highly sophisticated XC90 Inscription expresses the essence of contemporary luxury. Instantly recognisable thanks to its distinctive chrome-finish grille and lower door bright deco moulding, this expression sets the XC90 apart thanks to a number of well-judged exterior design cues that correspond with the car's timeless Scandinavian design. Just like beautifully crafted pieces of jewellery design, the large 20-inch wheels harmonise perfectly with the metal finish of the bright deco body inlays and the integrated roof rails. Together with the elegant dual integrated tailpipes, the wheels also contribute to

the car's confident stance. Our signature LED illumination contributes to both a strong visual identity and excellent vision in the dark. And for an even better and uninterrupted light pattern, you can opt for our advanced Full-LED Active High Beam illumination technology.

Every time you open the door, the Inscription tread plates provide an illuminated welcome. The luxurious theme continues with authentic, finely crafted materials that create a lounge-like atmosphere of sumptuous well-being. You and your passengers can lean back in sculpted power-operated Comfort seats

with Fine Nappa Leather upholstery. Exclusive Linear Walnut genuine wooden decor inlays, Inscription textile mats and our most advanced ambience interior illumination add to the rewarding Inscription experience. For an even higher level of comfort you can complement the seats with ventilation and massage functions. Adding a panoramic roof, everyone inside your XC90 will enjoy a superb experience of air and light. And for you as a driver, the large 12-inch driver display and convenient drive mode settings in the console between the front seats add to your feeling of being in command.

---

**1.** The signature headlights with LED illumination combine a distinct identity with excellent vision in the dark. **2.** Inscription front grille in elegant chrome finish. **3.** Dual integrated tailpipes and bright deco trim add to an elegant and powerful impression. **4.** Meticulously crafted 21" upgraded Inscription alloy wheels'. **5.** The intuitive 12-inch driver display with four graphic modes. **6.** Drive mode scroll wheel in diamond patterned metal finish and the Linear Walnut decor inlay. **7.** The lower door bright deco moulding with Inscription logotype. **8.** The exclusive Inscription Leather key remote.

# Inscription

The XC90 Inscription exterior with its subtle jewellery touches is a timeless expression of classical Scandinavian design. The exterior colour palette allows you to create the XC90 Inscription that best reflects your style and preferences. Available in distinctive diamond cut design, the 20-inch or 21-inch wheels connect visually with the exterior design cues to create a harmonic impression of contemporary elegance.

Sophisticated styling  
for your urban luxury.

**Fashion designers know that an elegant shape can be enhanced by the correct accessories. It's the same with cars. Do you seek a sophisticated, refined persona? Or do you wish to show the world a tougher, more rugged edge? Our two styling kits transform the appearance of your XC90 to match your personality.**

With well-judged touches of stainless steel, the Urban Luxury Styling Kit adds a luxurious sparkle to your XC90. The front décor frames feature abundant chrome and mesh. Together with the skid plate in stainless steel and the lower spoiler with mesh detailing, they give your XC90 a luxurious and dynamic impression. For the sides, the body kit with its wheel arch extensions and door trims give your XC90 a more muscular

appearance. And by accentuating the horizontal, the side scuff plates emphasise the sleekness of the XC90's shape. The rear bumper gets an exclusive skid plate in stainless steel and a lower spoiler whose styling and mesh accents give the tail-end of your XC90 a dynamic attitude. The integrated double tailpipes are included and complete the look of elegant power.

Go anywhere in  
rugged luxury.

**With its tech matt black accents, the Rugged Luxury Styling Kit gives a no-nonsense, go-anywhere feel to your XC90, showing the world that you're ready to take on any challenge.**

Give your XC90 an assertive, rugged expression all round. The front décor frames add a real sense of purpose, combining

chrome surfaces with mesh detailing. Then there's the eye-catching skid plate in stainless steel for the front bumper, which also includes a lower spoiler. Again, sporty mesh detailing adds to the confident appearance. On the sides, our body kit has wheel arch extensions and door trims in tech matte black for that rugged feel. You can enhance this further with our eye-

catching running boards. They have subtle light strips which guide you as you enter and exit after dark. A stainless steel skid plate adds another touch of luxury to the rear bumper. It harmonises beautifully with the lower spoiler in tech matte black and mesh accents, further enhancing your XC90's tough stance. Double integrated tailpipes provide a powerful finishing touch.

**1.** See more lifestyle accessories at [collection.volvocars.co.uk](http://collection.volvocars.co.uk) **2.** Specially designed for the XC90, this exclusive Volvo roof box with built-in lighting and storage net solves your roof top transports with style. **3.** 22" 6-Double Spoke, Matt Tech Black/Diamond Cut. **4.** 21" 10-Spoke, Turbine, Polished. **5.** Our new generation rearward facing child safety seats help provide effective protection with superior comfort and enhanced possibilities for rest and sleep.

Create an XC90  
that's perfect for your life.

6. If you have an active lifestyle, our roof load carriers are a must. They're specially designed to fit neatly and securely into the mounts and combine with any other holders you might need. No matter which sport you like, our specially designed holders – such as the kayak holder shown here – combine safety with ease of use.

With our range of accessories, you can create your own unique XC90 that fits in perfectly with your life. Take the illuminated tailgate scuff plate. With its illumination around the edges, it immediately elevates your load compartment from a practical storage space to a luxurious extension of the interior.

And if you or your passengers want to enjoy some rear seat entertainment, our iPad® holder is ideal. Just lean back and watch a movie, listen to music, browse the web, keep updated, check your feed and enjoy your apps. Best of all, two charging points allow you to charge both your iPad® and iPhone® at the same time.

If you've fallen in love with the interior wood trim in your car, our key fobs made from Linear Walnut or Flame Birch allow you to carry a little piece of Scandinavia in your pocket.

# Sensus options.

Sensus Connect comes with a host of features as standard: there's voice control, our High Performance audio system, an eye-catching 9-inch centre display with touch screen and our 8-inch driver display. And if you'd like to enhance your experience, there's a wealth of options. For example, you can access selected apps and functions in your iPhone® via the centre display

using Apple CarPlay. Then, there's Sensus Navigation and the head-up display: together, they make navigating easy and intuitive. And Volvo On Call not only includes a Wi-Fi hotspot and a SIM-card slot, so you can go online via the car's roof aerial – it also lets you interact with your car using a smartphone app, while giving you direct access to emergency support.

**SENSUS**

## SENSUS CONNECT WITH HIGH PERFORMANCE AUDIO SYSTEM

Includes the following standard features:

- 8" driver display
- 9" centre display with touch screen
- Bluetooth® audio streaming
- USB and AUX inputs
- Voice control
- Steering wheel controls
- Tethering via Wi-Fi or Bluetooth®

- High Performance audio system (330W, 10 speakers)
- Internet radio via apps

In addition, a digital owners manual and connected service booking are included.

The following apps will be standard:

## PREMIUM SOUND BY BOWERS & WILKINS

Our top-of-the-line audio system, developed exclusively for your XC90 together with the renowned high-end audio manufacturer Bowers & Wilkins.

- 12-channel 1400 W Class D amplifier
- 19 Bowers & Wilkins speakers, including a sub-woofer
- Quantum Logic Surround sound system
- Dirac Dimensions room transformation technology with three room modes: Concert, Studio and Stage
- Dirac Live sound enhancement technology
- Stainless steel tweeter panels

# IntelliSafe options.

## INTELLISAFE

Your Volvo XC90 comes with comprehensive IntelliSafe technologies as standard, which includes all the safety you'd expect from a Volvo and more. You'll also get City Safety, which encompasses technologies designed to help avoid collisions with pedestrians, cyclists, large animals and other cars. As a world-first, City Safety now also autobrakes if you're about to turn into the path of an

oncoming car. To round it off, Adaptive Cruise Control and Pilot Assist support come as standard. Additionally you can also get the benefit of technologies that alert you to vehicles approaching in your blind spot or from behind, providing an additional layer of safety.

## INTELLISAFE STANDARD

Includes:

- Electronic Stability Control
- Roll Stability Control
- Driver Alert Control
- Road Sign Information
- Speed Limiter
- Lane Keeping Aid
- Automatic braking after a collision
- City Safety  
(Pedestrian and cyclist detection, Autobrake at intersection, Large animal detection)
- Safety cage
- Safety belts with reminders and pretensioners for all seats
- Prepared front safety belts
- Airbags
- Brake pedal release
- Whiplash Protection System
- Run-off road Mitigation
- Run-off road protection
- SIPS™ – Side Impact Protection System
- Adaptive Cruise Control
- Pilot Assist
- Distance Alert

## INTELLISAFE OPTIONS

In addition, the following options are available:

- BLIS™ – Blind Spot Information System
- Rear Collision Warning with braking at stand still
- Cross Traffic Alert

## INTELLISAFE OPTIONS

Single Options – driver assistance, convenience and child safety features – that can be added to all IntelliSafe offers:

- 360° Camera
- Park Assist Pilot
- Integrated booster cushion

# The simplest way to own a car.

We love it when you're happy. When things are easier than you expect, or go faster and become better. Because when you buy a Volvo, you buy the simplest way to have a car. Financing, insurance, servicing, changing tyres, cleaning – those aspects of car ownership that you might not find very interesting, are the ones that we love to

make easier and better for you. That's why your Volvo dealer will always offer you a whole range of simplifying services and offers all designed around you, giving you the most carefree ownership experience possible.

Still, this is just the beginning. Through our uniquely Swedish approach to innovation, we continuously find new ways to make your

life simpler. For instance, the Connected Service Booking function, which lets you book an appointment just by pushing a button in your car or our Volvo Service Promise, eight commitments to you guaranteeing an unbeatable combination of quality, reassurance and expertise.

## MY VOLVO

My Volvo is a personalised website that contains everything you need to really get to know – and get the most out of – your car. It gives you:

- A complete overview of your Volvo ownership
- Track your new car order
- Easy access to all facts relating to your car
- Personalised offers and exclusive discounts
- Helpful tips regarding your specific Volvo model
- Instructional films and owner's manuals
- Online Service Booking
- Reminders regarding important stages of your car ownership
- Exclusive articles, films and photographs

## CONNECTED SERVICE BOOKING

If your Volvo has Sensus Connect, it will remind you when it needs servicing and offer to contact your Volvo dealer for you. Booking proposals sent from your preferred dealer can easily be managed directly in the car or on your personal My Volvo website. When the time comes to drive to your workshop, your Volvo will remind you and even guide you there. And since your Volvo tells us what it needs, we can make sure it always receives the service it requires when it gets there.

**N.B** Some information may have been updated since this brochure was printed. Some of the equipment described or shown may now be available only at extra cost. Before ordering, please ask your Volvo dealer for the latest information. The manufacturer reserves the right to make changes at any time, without notice to prices, colour, materials, specifications and models.

**V O L V O**

**Official fuel consumption for the Volvo XC90 in MPG (l/100km)  
ranges from:**

Urban 28.8 (9.8) – 45.6 (6.2), Extra Urban 40.4 (7.9) – 52.3 (5.4),  
Combined 35.3 (8.0) – 134.5 (2.1). CO<sub>2</sub> Emissions range from 186 – 49g/km.  
MPG figures are obtained from laboratory testing intended for comparisons  
between vehicles and may not reflect real driving results.
