## TOYOTA SAFETY SENSE\*

Toyota Safety Sense\* adds advanced active safety systems for an even safer and more relaxed drive. Three active technologies – Pre-Collision System, Lane Departure Alert and Automatic High Beam are at the heart of Toyota Safety Sense. In addition, Yaris features a broad range of integrated safety features, from multiple airbags to Tyre Pressure Warning System (TPWS) and Vehicle Stability Control (VSC). With Toyota Safety Sense you may also benefit through reduced insurance premiums<sup>§</sup>.

### Automatic High Beam

Toyota Safety Sense's Automatic High Beam is designed to optimise visibility during night driving for all road users. A camera detects the lights of oncoming vehicles and leading traffic whilst also monitoring the brightness of streetlights. It switches automatically between high and low beam for safer night-time driving.

### Pre-Collision System

Toyota Safety Sense's Pre-Collision System uses a camera and laser to detect other vehicles in the road ahead. When the possibility of a collision is detected the driver is alerted with audio and visual warnings and brake assistance is activated. If the driver fails to brake in time the brakes automatically engage to prevent or mitigate a collision.

### Lane Departure Alert

Using a camera to detect the lane markings in the road ahead, Toyota Safety Sense's Lane Departure Alert will alert the driver with audio and visual warnings if the vehicle starts to deviate from its lane without the turn indicator being applied – the driver can then take corrective action.

\* Toyota Safety Sense on 2016 Yaris includes rain-sensing wipers, unless already standard.

§ Reduced insurance premiums are offered at the sole discretion of your insurance provider and are dependent on driving and claims history. Please check with your insurance provider if applicable.

**All active safety technologies** are intended to be back-up systems only and are not a substitute for safe and attentive driving. The functionality of these systems may be impacted by driving conditions. Further information is available from your local Toyota Centre.

## 2. Rear sun blind

Opaque from the outside to shield against the sun and prying eyes, but clear from the inside so you and your passengers can see out.

## 3. Side sun blinds

Perfect for protecting rear seat passengers against the sun while still allowing them to look out through the side windows.

## 4. Small bin/ashtray

Slots neatly into the console cup-holder space. The close-fitting spring-shut lid helps contain tobacco odours and waste.

## 5. European safety pack

Ideal when travelling to Europe. It comprises two warning triangles, four safety jackets, one GB sticker, one pair of beam deflectors, two breathalyzers and a first aid kit, all combined in one Toyota branded bag. This bag can be stored in the boot of the vehicle and held in place with velcro.
