PRODUCT DATA SHEET

Fortron Advanced Oil Guard

Eco Logic Advanced Oil Guard provides a balanced treatment that protects and lubricates diesel and petrol engines. After application, vehicles benefit from reduced emissions and engine component protection.

Features

- Fully compatible with all mineral and synthetic engine oils.
- Conforms to world leading crankcase oil specifications.
- Boosts performance levels of API and SAE crankcase lubricants.
- Safe and simple application.

Facts

Eco Logic Advanced Oil Guard provides remarkable cold start protection. With up to 75% of engine wear taking place upon start up, Advanced Oil Guard will assist in reducing engine wear and tear.

After Service Benefits

- Reduces harmful emissions.
- Protects internal engine components.
- Ensures optimum lubrication.
- Improves fuel economy.
